SCA Licensing and Registration

The Lunate End-of-Service Benefits Fund (the **Umbrella Fund**) and its sub-funds, the Capital Protection Sub-Fund, the Shari'a-Compliant Capital Protection Sub-Fund, the Global Conservative Sub-Fund, the Shari'a-Compliant Global Conservative Sub-Fund, the Global Balanced Sub-Fund and the Shari'a-Compliant Global Balanced Sub-Fund (each a **Sub-Fund** and, together, the **Sub-Funds**), have been licensed by and registered with the SCA. The Umbrella Fund is registered and Sub-Funds are licensed and registered in accordance with the UAE Investment Fund Laws and the UAE EOSB Fund Laws. The authorisation of the Sub-Funds is not an endorsement or guarantee of the Sub-Funds by the SCA nor is the SCA responsible for the contents of this Prospectus. Authorisation of the Sub-Funds by the SCA does not constitute a warranty as to the performance of the Sub-Funds and the SCA will not be liable for the performance or default of any of the Sub-Funds.

Investment Risks

Each Sub-Fund has a certain risk profile, though an investment in any Sub-Fund carries risk. Of the Sub-Funds, the Capital Protection Sub-Fund and the Shari'a-Compliant Capital Protection Sub-Fund are lower risk investments, the Global Conservative Sub-Fund and the Shari'a-Compliant Global Conservative Sub-Fund are medium risk investments and the Global Balanced Sub-Fund and the Shari'a-Compliant Global Balanced Sub-Fund are higher risk investments. Nonetheless, there can be no assurance that any Sub-Fund will achieve its investment objective. The value of a Unit in a Sub-Fund and any returns on an investment in Units are not guaranteed and such value and/or returns (if any) may decrease as well as increase. An investment in a Sub-Fund involves investment risks, including the potential loss of some or all of the amount invested. Any capital return and gain received in respect of an investment in a Sub-Fund is based on capital appreciation and income derived from the Investments held by that Sub-Fund, less fees, costs, expenses, taxes and liabilities incurred by the Sub-Fund. Returns from an investment in a Sub-Fund should therefore be expected to fluctuate based on changes to the valuation of Investments and income therefrom, if any. Other factors, such as fluctuations in currency exchange rates between the currency in which Units of a Sub-Fund are denominated and the currency of Investments may also cause changes to the value of an investment in the Units. Prospective Investors should refer to the specific risk factors set out in Section 22 (*Risk Factors*).

Classification of Sub-Fund Units

The Fund Manager will make one (1) Class, which is accumulating, available in each of the Sub-Funds (and may, from time to time and subject to prior approval by the SCA, make additional Classes available in one or more Sub-Funds).

For each Sub-Fund, Basic Contributions and Voluntary Contributions will be eligible for investment in Class A Units of that Sub-Fund, in each case in accordance with the terms of this Prospectus.

None of the Units in any of the Sub-Funds will be listed or admitted for trading on an exchange. Units in the Sub-Funds will only be made available to Eligible Employees on an off-market basis.

Distribution and Selling Restrictions

The distribution of this Prospectus and the offering or purchase of the Units in the Sub-Funds may be restricted in certain jurisdictions. No Persons receiving a copy of this Prospectus or an associated application form in respect of Units in the Sub-Funds in any such jurisdiction may treat this Prospectus or such application form as constituting an invitation to them to purchase or subscribe for Units, nor should they in any event use such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used with the required approval from the relevant regulatory authorities. Accordingly, this Prospectus does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the Person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any Persons in possession of this Prospectus and any Persons wishing to apply for Units pursuant to this Prospectus to inform themselves of, and to observe, all laws, rules and regulations of any relevant jurisdiction applicable to such Person. Prospective applicants for Units should inform themselves as to the legal requirements of so applying and subscribing, holding or disposing of such Units and any applicable exchange control regulations and taxes in the countries of their respective citizenship, residence, incorporation or domicile, including any requisite government or other consents and the observing of any other formalities.

The Units have not been registered under the 1933 Act or the securities laws of any United States state, nor is such registration contemplated. The Units will not be offered or sold in the United States. The Units will be offered outside the United States in reliance upon Regulation S.

There is no public market for the Units and no such market is expected to develop in the future. The Units may not be sold or transferred (i) except as permitted under this Prospectus and Applicable Laws and (ii) unless they are registered under the 1933 Act and under any other applicable securities laws or an exemption from such registration thereunder is available.

This Prospectus does not constitute an offer to sell or the solicitation of an offer to buy in any state or other United States jurisdiction to any Person to whom it is unlawful to make such offer or solicitation in such state or jurisdiction. This offering does not constitute an offer of the Units to the public, and no action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose. The Units may not be offered or sold, directly or indirectly, and this Prospectus may not be distributed in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction.

The Fund will not be registered as an investment company under the 1940 Act. Under current interpretations of the SEC, the 1940 Act exempts from such registration any non-United States issuer all of whose outstanding securities are beneficially owned either by Persons who are not US Persons or by United States residents that are “qualified purchasers” as defined under the 1940 Act if relying on 3(c)(7). Prospective Investors will be required to make certain representations and warranties, and the Fund’s legal documents will contain restrictions on transfer, designed to ensure that the conditions relating to the foregoing exemption will be met. None of the Fund Parties is registered or intends to register as an investment adviser under the Investment Advisers Act of 1940.

Marketing Rules

Distribution of this Prospectus is not authorized unless it is accompanied by a copy of the latest annual report of the Umbrella Fund and any relevant Sub-Fund if such annual report has been published and, if this Prospectus is published thereafter, the latest half-yearly report of the Umbrella Fund and any relevant Sub-Fund. However, prospective Investors should note that the Auditor does not accept or assume responsibility to any Person other than the Fund Manager, the Umbrella Fund, the various Investors of the relevant Sub-Funds and any other Person as may be agreed in writing by the Auditor, for their audit work, their report or the opinions they have formed. Units are offered only on the basis of the information contained in the current Prospectus and, as appropriate, the latest annual report or half-yearly report of the Umbrella Fund, or a similar report in respect of a particular Sub-Fund, as the case may be.

Any further information or representation given or made by any dealer, salesperson or other Person should be disregarded and accordingly should not be relied upon. Neither the delivery of this Prospectus nor the offer, issue or sale of Units shall, under any circumstances, constitute a representation that the information given in this Prospectus is correct as of any time subsequent to the date of this Prospectus.

Statements made in this Prospectus are based on Applicable Laws of the UAE and are subject to changes therein conditional to the required approval of the SCA.

THIS PROSPECTUS WILL BE TRANSLATED INTO ARABIC AND ENGLISH AND MAY BE TRANSLATED INTO OTHER LANGUAGES PROVIDED THAT ANY SUCH TRANSLATION SHALL BE A DIRECT TRANSLATION OF THE ARABIC TEXT. IN THE EVENT OF ANY INCONSISTENCY OR AMBIGUITY IN RELATION TO THE MEANING OF ANY WORD OR PHRASE IN TRANSLATION, THE ARABIC TEXT SHALL PREVAIL AND ALL DISPUTES AS TO THE TERMS THEREOF SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, APPLICABLE LAWS OF THE UAE. THIS PROSPECTUS SHOULD BE READ IN ITS ENTIRETY BEFORE MAKING AN APPLICATION FOR UNITS IN ANY SUB-FUND.

Forward Looking Statements

This Prospectus includes "forward-looking statements". In some cases, forward-looking statements can be identified by the use of terminology such as "anticipates", "believes", "estimates", "seeks", "expects", "plans", "will", "intends", "aims" and similar expressions. Although the Fund Manager believes that the expectations reflected in these forward-looking statements are reasonable as of the date of this Prospectus, such expectations may prove to be incorrect. Important factors could cause actual results to differ materially from such expectations.

For information about some of the factors that could cause the actual results of a Sub-Fund to differ from the expectations stated in the forward-looking statements, please read Section 22 (*Risk Factors*). The Fund Manager urges prospective Investors to consider these risk factors carefully in evaluating the forward-looking statements contained in this Prospectus. All subsequent written or oral forward-looking statements attributable to the Fund Manager or any Persons acting on the behalf of the Fund are expressly qualified in their entirety by these cautionary statements. The forward-looking statements included in this Prospectus are made only as of the date of this Prospectus. The Fund Manager does not intend, and undertakes no obligation, to update these forward-looking statements.

Reliance on this Prospectus and any Supplement

Any information or representation not contained in this Prospectus or given or made by any broker, salesperson or other Person should be regarded as unauthorized by the Fund Manager and should accordingly not be relied upon.

In deciding whether to invest in a Sub-Fund, prospective Investors should rely on information in this Prospectus, any Supplement, the relevant key investor information document (**KIID**) and the most recent annual and/or semi-annual reports of the Umbrella Fund and the relevant Sub-Fund.

Each Sub-Fund in which prospective Investors can invest will have a separate Supplement that includes a KIID issued in accordance with the UAE Investment Fund Laws, the UAE EOSB Fund Laws and the requirements of the SCA. Prospective Investors should consider the Supplement, including the KIID, for the relevant Sub-Fund prior to subscribing for Units of that Sub-Fund in order to assist them in making an informed investment decision. This Prospectus, including the Supplements, describes each Sub-Fund, though only Units in certain Sub-Funds may be offered for subscription to prospective Investors. Prospective Investors should contact the Fund Manager directly to determine whether Units in the relevant Sub-Fund are available for subscription.

Because this Prospectus, the Supplements and the KIIDs may be updated from time to time, prospective Investors should make sure they have the most recent versions.

Statements made in this Prospectus and any Supplement are based on Applicable Laws of the UAE at the date of this Prospectus or Supplement, as the case may be, which may be subject to change. Neither the delivery of this Prospectus nor the offer, issue or sale of Units in any Sub-Fund will under any circumstances constitute a representation that the affairs of that Sub-Fund have not changed since the date hereof. This Prospectus will be updated to take into account any material changes from time to time and any such amendments will be notified in advance to and approved by the SCA.

Prospective Investors should not treat the contents of this Prospectus as advice relating to legal, taxation, investment or other matters. If you are in any doubt about the contents of this Prospectus, the risks involved in investing in a Sub-Fund or the suitability for you of investing in a Sub-Fund, you should consult your independent financial adviser, accountant, legal adviser, tax consultant and Shari'a adviser.

(j) The Basic Contribution that each Employer will make on, or within a maximum of fifteen (15) days from the first day of each month in respect of each Investor will be calculated as follows:

(i) in respect of an Investor that is a Full-Time Eligible Employee whose term of employment with an Employer does not exceed five (5) years, 5.83% of the Investor's monthly basic salary;

(ii) in respect of an Investor that is a Full-Time Eligible Employee whose term of employment with an Employer exceeds five (5) years, 8.33% of the Investor's monthly basic salary; and

(iii) in respect of an Investor that is not a Full-Time Eligible Employee, the Part-Time Percentage of the Investor's monthly basic salary.

(k) Notwithstanding anything to the contrary in this Section 15.1, in any month where (i) an Employer becomes or ceases to be an Investor or (ii) a Person becomes or ceases to be an Eligible Employee of an Employer, the Employer will be required to contribute the relevant Basic Contribution in respect of such Eligible Employee in accordance with Section 15.1(j) applied on a *pro rata* basis for such month based on the number of days in such month that the Employer was an Investor or the Person was an Eligible Employee, as applicable.

(l) To the maximum extent not prohibited by Applicable Laws, each Employer, in its capacity as an Investor only, will bear (but will not be required to make any Person whole for) any losses in respect of the Basic Contributions it invests in any Sub-Fund until such date as the Basic Contributions are transferred to the relevant Eligible Employee. From the Redemption Eligibility Date, the relevant Eligible Employee will bear such losses on the Basic Contributions paid on their behalf prior to the Redemption Eligibility Date and thereafter whether they receive their Basic Contribution Redemption Proceeds (as defined below) pursuant to Section 15.3(c) or retain all or any part of their Basic Contributions as an investment in the Fund pursuant to Section 15.3(e). For the avoidance of doubt, (i) each Eligible Employee will bear any losses in respect of their Voluntary Contributions and (ii) the Fund Manager will not bear any losses on amounts invested in any Sub-Fund save to the extent provided in Section 19.1.

(m) Investors will have no recourse to any Fund Party or any Service Provider in respect of losses relating to an investment in the Fund, save for, in respect of a Fund Party, in accordance with Section 19 or, in respect of a Service Provider, where there is a final, non-appealable decision by a court that a Service Provider has acted with gross negligence, bad faith or has deliberately breached any of its obligations to the Fund Manager or any Sub-Fund.

(n) Upon termination of the Employer Participation Agreement of an Employer:

(i) such Employer will immediately pay all amounts owed to the Fund Parties that were due as at the date of termination without any netting, set-off or reduction applied;

(ii) such Employer will promptly deliver to the Fund Manager and the Fund Administrator all books of account, records, registers, correspondence, documents and assets relating to the affairs of the Fund or the Fund Manager or belonging to the Fund or the Fund Manager in the possession of or under the control of the Employer;

(iii) such Employer will redeem all Basic Contributions invested in any Sub-Fund in accordance with Section 15.3;

(iv) such Employer will not contribute any further Basic Contributions to the Fund in respect of any Persons, including those that were Eligible Employees of that Employer immediately prior to such termination, save as set forth this Prospectus; and

(v) any Persons that were Eligible Employees of the Employer immediately prior to termination that have Voluntary Contributions invested in a Sub-Fund may elect to remain invested in that Sub-Fund in which they invested Voluntary Contributions or withdraw such Voluntary Contributions in accordance with Section 15.3.

(o) In the event that the Employer becomes a Defaulting Employer, the following requirements will apply:

(i) the Fund Manager will send a notice in writing to the Defaulting Employer with respect to the amount then outstanding and overdue by the Defaulting Employer (the **Default Amount**) within thirty (30) days from the Payment Date that requires the Defaulting Employer to pay the Default Amount, with any applicable additional amount thereon as may be specified in the Employer Participation Agreement of such Defaulting Employer, within five (5) Business Days from the date of delivery of such notice; and

(ii) in the event that the Defaulting Employer does not pay the Default Amount, together with any applicable additional amount thereon as may be specified in the Employer Participation Agreement of such Defaulting Employer, within fifteen (15) days from the delivery of the notice described in clause (i), the Fund Manager will notify MOHRE of the Defaulting Employer and the Default Amount and MOHRE may take such actions as are set out in the UAE EOSB Fund

Laws, including restricting the ability of the Defaulting Employer to issue work permits in the UAE and imposing administrative fines;

provided, that the foregoing will in no way limit any Fund Party from pursuing and enforcing any and all rights and remedies such Fund Party may have against the Defaulting Employer pursuant to the Employer Participation Agreement of the Defaulting Employer or pursuant to any other provision of this Prospectus or under Applicable Laws; provided further, that any action by a Fund Party under the provisions of this Prospectus, the Employer Participation Agreement, a Subscription Agreement or any other agreement will in no way limit or otherwise restrict the Fund Manager from taking any other action not prohibited by this Prospectus or Applicable Laws.

(p) Any dispute between a Defaulting Employer and a Fund Party will be resolved in accordance with the terms of the Employer Participation Agreement of such Defaulting Employer and Applicable Laws.

15.2 **Voluntary Contributions**

(a) An Eligible Employee of an Employer may, but is not required to, make Voluntary Contributions either on a monthly basis or by way of one or more lump-sum contributions to one or more Sub-Funds.

(b) Subject to the requirements of Section 14.3, an Eligible Employee may make Voluntary Contributions either (i) by electing that their Employer makes such Voluntary Contributions on their behalf to one or more Sub-Funds (each, a **Voluntary Contribution Elected Sub-Fund**) by way of a contribution from their salary or (ii) by making an investment in the relevant Sub-Funds directly.

(c) In respect of Voluntary Contributions each Employer will:

(i) implement systems and processes satisfactory to the Fund Manager and the Fund Administrator that allow each Eligible Employee of the Employer to (A) make Voluntary Contributions to the Sub-Funds directly or elect in writing one or more Voluntary Contribution Sub-Funds in accordance with Section 15.2(b), (B) transfer their Voluntary Contributions between Sub-Funds in accordance with Section 15.2(h), and (C) access such information and effect such other transactions in respect of their Voluntary Contributions as the Fund Manager or the Fund Administrator may reasonably require, subject at all times to the eligibility criteria described in Section 14.3;

(ii) ascertain and record in writing the Voluntary Contribution Elected Sub-Funds in respect of each Eligible Employee, including any updates or changes to the Voluntary Contribution Elected Sub-Funds of each Eligible Employee; and

(iii) invest the Voluntary Contributions elected by an Eligible Employee on behalf of such Eligible Employee by (x) making deductions to the salary of the Eligible Employee and (y) investing such amounts in the Voluntary Contribution Elected Sub-Funds on behalf of the Eligible Employee, in each case in accordance with the information submitted pursuant to the Subscription Process of the Eligible Employee;

provided at all times, that any Eligible Employee will be subject to the eligibility criteria described in Section 14.3, as determined by the Fund Manager in its discretion, prior to an Employer making any Voluntary Contributions on behalf of such Eligible Employee.

(d) Employers and Eligible Employees must use the systems and processes described in Section 15.2(c)(i) for the purposes of effecting the transactions relating to Voluntary Contributions contemplated therein.

(e) Notwithstanding anything to the contrary in this Section 15.2, an Eligible Employee that becomes an Investor may not contribute in excess of 25% of their gross salary to the Fund, or such other limit as may be prescribed by Applicable Laws from time to time, by way of Voluntary Contributions.

(f) An Eligible Employee that is an Investor as a result of making one or more Voluntary Contributions may amend the amount of such Voluntary Contributions at any time by validly updating the information provided in their Subscription Process that is accepted by the Fund Manager and the Fund Administrator in accordance with the provisions therein and, if such Voluntary Contributions are facilitated by the Employer, such Employer will make available systems and processes satisfactory to the Fund Administrator that allow each Eligible Employee of the Employer to amend the amount of or cancel their Voluntary Contributions.

(g) An Eligible Employee may request, no more frequently than once per month, to change their Voluntary Contribution Elected Sub-Funds elected in accordance with Section 15.2(b) (a **Voluntary Contribution Sub-Fund Election Request**); provided, that the Eligible Employee satisfies the requirements at Section 14.3. The Fund Manager and the Fund Administrator may accept or refuse any Voluntary Contribution Sub-Fund Election Request made pursuant to this Section 15.2(g) in their discretion. The Fund Manager and the Fund Administrator will use their reasonable efforts to effect a Voluntary Contribution Sub-Fund Election Request that they accept from the month following their acceptance of such Voluntary Contribution Sub-Fund Transfer Request or as soon as practicable thereafter.

(h) An Eligible Employee may request, no more frequently than once per month, to transfer all or some of the Basic Contributions invested on their behalf in their Voluntary Contribution Elected Sub-Funds to date to one or more other Sub-Funds (a **Voluntary Contribution Sub-Fund Transfer Request**); provided, that the Eligible Employee satisfies the requirements at Section 14.3. The Fund Manager and the Fund Administrator may accept or refuse any Voluntary Contribution Sub-Fund Transfer Request made pursuant to this Section 15.2(h) in their discretion. The Sub-Funds between which the Eligible Employee transfers Voluntary Contributions pursuant to a Voluntary Contribution Sub-Fund Transfer Request may charge to the transferring Eligible Employee certain costs and expenses incurred in respect of effecting the Voluntary Contribution Sub-Fund Transfer Request, and any such costs and expenses will be applied by reducing the Voluntary Contributions of such Eligible Employee subject to the Voluntary Contribution Sub-Fund Transfer Request in an equivalent amount. Any Voluntary Contributions transferred pursuant to a Voluntary Contribution Sub-Fund Transfer Request will include any returns thereon, be subject at all times to any losses on such investment, and will be net of fees, costs, expenses and taxes incurred in effecting such Voluntary Contribution Sub-Fund Transfer Request. The Fund Manager and the Fund Administrator will use their reasonable efforts to effect a Voluntary Contribution Sub-Fund Transfer Request that they accept within fifteen (15) Business Days of acceptance of the Voluntary Contribution Sub-Fund Transfer Request or as soon as practicable thereafter.

(i) The right of an Investor that is an Eligible Employee to make Voluntary Contributions will terminate immediately upon such Person ceasing to be an Eligible Employee; provided that such Investor will not be required to redeem or withdraw any Voluntary Contributions made prior to the date on which they cease to be an Eligible Employee.

(j) An Eligible Employee may choose to make Voluntary Contributions to any Class and any Sub-Fund, including if they are not a Skilled Worker Eligible Employee; provided, that if the Investor chooses to make a Voluntary Contribution but does not specify the Class or Sub-Fund in which to invest the Voluntary Contribution, the Fund Manager will invest such Voluntary Contribution in one of the Classes of the Capital Protection Sub-Fund or the Shari'a-Compliant Capital Protection Sub-Fund as the default option.

(k) An Eligible Employee that is not a Skilled Worker Eligible Employee that elects to make a Voluntary Contribution to a Sub-Fund that is not the Capital Protection Sub-Fund or the Shari'a-Compliant Capital Protection Sub-Fund must sign a statement in the form prescribed by the Fund Manager or the Fund Administrator, as applicable, in accordance with Applicable Laws, to the effect that they

acknowledge the risks related to such investment prior to being admitted to such Sub-Fund as an Investor.

(l) Any Voluntary Contribution made by an Eligible Employee will be in addition to the obligation of the Employer of such Eligible Employee to contribute the Basic Contributions in respect of such Eligible Employee and Voluntary Contributions will not be counted towards the Eligible Employee's end-of-service gratuity entitlement upon termination of their employment with their Employer.

15.3 **Redemptions**

(a) No Employer may redeem or withdraw any Basic Contributions it makes so long as it remains a participant in the Lunate EOSB Scheme other than as provided by Applicable Laws.

(b) No Eligible Employee will have any right to access or redeem any Basic Contributions made on their behalf by an Employer until such date as they cease to be an Eligible Employee of the Employer as a result of the termination of their Employment Contract.

(c) Upon the Redemption Eligibility Date of an Eligible Employee, such Person will be entitled to receive from the relevant Sub-Fund an amount equal to the total of all Basic Contributions made on such Person's behalf, together with any returns thereon, subject at all times to any losses on such investment, net of fees, costs, expenses and taxes (the **Basic Contribution Redemption Proceeds**), subject to the consent of the Employer of the Eligible Employee, such consent not to be unreasonably withheld; provided, that such Person meets the eligibility criteria set forth in Section 14.3. In the event that the Employer seeks to withhold or otherwise not to pay all or any part of the Basic Contribution Redemption Proceeds to an Eligible Employee pursuant to this clause (c), the Eligible Employee may escalate any dispute to MOHRE for review.

(d) An Investor that is not an Employer may, but is not obligated to, withdraw all or part of the Voluntary Contributions they have made to the Sub-Fund, including any returns thereon, subject at all times to any losses on such investment, net of fees, costs, expenses and taxes (the **Voluntary Contribution Redemption Proceeds**), up to once every week by validly completing the redemption application process in a manner and form prescribed by the Fund Administrator, which may be online, electronic or otherwise and may include a redemption application in the form prescribed by the Fund Administrator (a **Redemption Application**), and submitting the Redemption Application to the Fund Administrator together with any supporting documentation required by the Fund Administrator. The Fund Administrator will have discretion to provide separate instructions for Investors to complete and submit the Redemption Application online or otherwise. The Fund Administrator may request additional information and documentation from an Investor prior to effecting a Redemption Application, including in respect of anti-money laundering, "know your client" or equivalent requirements. Once the Redemption Application, including supporting anti-money laundering, "know your client" and related documentation, has been processed by the Fund Administrator and accepted by the Fund Manager, the Fund Administrator will process the withdrawal of the Voluntary Contribution Redemption Proceeds within (10) Business Days or as soon as practicable thereafter.

(e) An Investor that is not an Employer may notify the Fund Administrator within three (3) Business Days from the Redemption Eligibility Date in writing in the form prescribed by the Fund Administrator that the Investor wishes to retain some or all of their investment in the Fund following the Redemption Eligibility Date. In the event that the Investor notifies the Fund Administrator pursuant to this clause (e), the Investor may subsequently redeem all or part of their investment in the Sub-Fund at any time by submitting a Redemption Application to the Fund Administrator, which, once such Redemption Application is accepted by the Fund Manager, will process such redemption within (10) Business Days or as soon as practicable thereafter.

(f) Subject to clause (g), if an Investor that is not an Employer does not notify the Fund Administrator that they intend to retain all or some of their investment in the Sub-Fund following the Redemption Eligibility Date, the Fund Manager or the Fund Administrator, as applicable, will arrange for the relevant Sub-Funds to distribute the Basic Contribution Redemption Proceeds and the Voluntary Contribution Redemption Proceeds to the Investor within ten (10) Business Days of the Redemption Eligibility Date or as soon as practicable thereafter, subject to Applicable Laws.

(g) In the event of the death of an Investor, the Fund Manager will distribute the Basic Contribution Redemption Proceeds and the Voluntary Contribution Redemption Proceeds to the estate of the Investor within ten (10) Business Days of being notified in writing of such death, subject to Applicable Laws.

(h) The Fund Manager will promptly withdraw an Investor from any Sub-Fund once that Investor ceases to have any Basic Contributions, Voluntary Contributions, any returns thereon or any other amounts invested in any Sub-Fund.

(i) A Redemption Application, once submitted by an Investor to the Fund Administrator, will be irrevocable save with the consent of the Fund Manager. The Lunate Persons will be held harmless by the Investor for any losses arising in respect of the processing of a Redemption Application submitted by such Investor, including where the Fund Manager or the Fund Administrator rejects a completed Redemption Application on the basis of requiring further information or documentation from the Investor.

(j) The Redemption Price will be calculated at the Unit Price on the date the redemption of Units is effected by the Fund Administrator.

(k) The Fund Manager will use its reasonable efforts to effect all redemptions in cash.

(l) Notwithstanding anything to the contrary in this Prospectus, the Fund Manager may pay to the relevant Employer out of the Basic Contribution Redemption Proceeds and the Voluntary Contribution Redemption Proceeds due to the Investor any amount owed by the Investor to such Employer pursuant to a court order or following the approval of MOHRE in accordance with Applicable Laws.

15.4 **Voluntary Withdrawal**

(a) Employers may voluntarily withdraw from any Sub-Fund or the Lunate EOSB Scheme only with the approval of the Fund Manager and/or MOHRE and otherwise in accordance with Applicable Laws and the terms of the Employer Participation Agreement of such Employer.

(b) Unless otherwise approved by MOHRE, an Employer may not voluntarily withdraw from any Sub-Fund or the Lunate EOSB Scheme (i) within one year of commencing its participation in the relevant Sub-Fund, (ii) if such Employer has any outstanding administrative fines or existing labour disputes pending settlement or (iii) until such time as the Employer has satisfied the requirements applicable to it under the UAE EOSB Fund Laws.

(c) Any voluntary withdrawal of an Employer from the Fund or the Lunate EOSB Scheme will not affect the rights and benefits of any Investor under the terms of this Prospectus.

(d) The Employer Participation Agreement in respect of an Employer will terminate immediately upon withdrawal of such Employer from the relevant Sub-Fund or the Lunate EOSB Scheme, subject to the terms of such Employer Participation Agreement.

(e) Upon the voluntary withdrawal of an Employer, all Persons that were Eligible Employees of the Employer immediately prior to such withdrawal will cease to be Eligible Employees and any such Persons who are Investors will have the right, but not the obligation, to redeem their Units relating to

Voluntary Contributions in accordance with Section 15.3(d). For the avoidance of doubt, such Persons will not have the right to redeem any Basic Contributions made on their behalf by the Employer, which amounts will be redeemed by the Employer in accordance with Applicable Laws.

(f) In the event that an Employer withdraws from the relevant Sub-Fund or the Lunate EOSB Scheme in accordance with this Section 15.4, the Employer will provide a credit report to MOHRE to evidence that it has sufficient financial solvency to meet the end-of-service entitlements of its directors, officers, partners, employees and other staff members.

15.5 **Additional provisions in respect of subscription for and redemption of Units**

(a) Units will be issued in dematerialized (or uncertificated) form. Fractional Units may be issued.

(b) The Fund Administrator will maintain a register of Investors in accordance with Applicable Laws.

(c) The Fund Manager may amend the procedures for issuing and redeeming Units in its discretion or, to the extent required by Applicable Laws, with the prior approval of the SCA and/or MOHRE; provided, that any such amendment will comply with Applicable Laws. The Fund Manager will notify any such amendment to the Custodian and the Fund Administrator in advance and will request approval from the SCA in respect of any related changes required to this Prospectus.

(d) Notwithstanding anything to the contrary in this Prospectus, to the extent not prohibited by Applicable Laws, the Fund Manager may, where it determines in its discretion that such action is desirable for compliance with Applicable Laws or is otherwise in the best interests of the Investors or the relevant Sub-Fund or the Fund as a whole and with the prior approval of the SCA and/or MOHRE as may be applicable:

(i) suspend the whole or part of the Basic Contributions payable by an Employer pursuant to an Employer Participation Agreement, including in respect of one or more specified Eligible Employees;

(ii) restrict an Investor from making Voluntary Contributions;

(iii) restrict redemptions by an Investor or otherwise freeze or suspend the Basic Contributions and Voluntary Contributions of an Investor;

(iv) require the redemption of all or part of the Basic Contributions and Voluntary Contributions of an Investor; and

(v) take such other action in respect of subscriptions for and redemptions of Units as it deems reasonable in the circumstances.

15.6 **Mandatory Repurchase of Units and Forfeiture of Dividends**

Investors are required to notify the Fund Manager immediately in the event that they become US Persons. Investors who become US Persons may be required to dispose of their Units to non-US Persons unless the Units are held pursuant to an exemption which would allow them to hold the Units. The Fund Manager reserves the right to redeem or require the transfer of any Units which are or become owned, directly or indirectly, by a US Person or other Person if the holding of the Units by such other Person is unlawful or, in the sole determination of the Fund Manager, the holding may result in a material adverse economic, legal, regulatory, tax or similar effect on any Fund Party or the Investors.

16. VALUATION

16.1 Calculation of Net Asset Value

(a) The Net Asset Value will be calculated by the Fund Administrator as follows:

(i) in respect of each Sub-Fund, the Net Asset Value will be calculated as the aggregate amounts (A) invested in Investments by the Sub-Fund, including any margin, collateral, fees, costs and expenses associated with such Investments, (B) committed pending settlement in potential Investments by the Sub-Fund, including any margin, collateral, fees, costs and expenses associated with such potential Investments, (C) pledged, reserved or committed in respect of the foregoing, in each case including any amount funded or to be funded under borrowings or other indebtedness in respect of the foregoing, less an amount equal to the aggregated amount invested in Investments by the Sub-Fund, including any margin, collateral, fees, costs and expenses associated with such Investments, to the extent fully realized or permanently written down below their acquisition cost;

(ii) in respect of the Fund, the Net Asset Value will be calculated by aggregating the Net Asset Value of each Sub-Fund calculated in accordance with clause (i);

(iii) in respect of each Unit of any Sub-Fund or the Fund, the net asset value per Unit (the **Net Asset Value per Unit**) will be calculated by dividing the Net Asset Value of the relevant Sub-Fund or the Fund in accordance with clause (i) or (ii), respectively, by the number of Units issued and outstanding by such Sub-Fund or the Fund, as applicable and the Net Asset Value of such Unit will be the Unit Price; and

(iv) in respect of each Class, the Net Asset Value will be calculated by multiplying the Net Asset Value of each Sub-Fund calculated in accordance with clause (i) by the percentage of Units of such Sub-Fund that comprise such Class.

(b) Notwithstanding Section 16.1(a), the Fund Administrator may calculate the Net Asset Value on any other basis in accordance with IFRS taking into account the nature of any fees, costs, expenses and charges, provided that such basis is in the reasonable determination of the Fund Manager fair and equitable.

(c) Fees, costs, expenses and charges relating to a specific Class will be borne solely by that Class. In the event that a Class is priced in a currency other than the Base Currency, currency conversion costs will be borne by that Class. Investors should also note that in respect of unhedged Classes any currency conversion will take place on subscriptions, redemptions, conversions and distributions at prevailing exchange rates.

(d) The Net Asset Value will be rounded upwards or downwards as appropriate to the nearest four (4) decimal places.

(e) In determining the value of the Investments of a Sub-Fund, each Investment listed, traded or dealt in on a regulated market for which market quotations are readily available will be valued at the last traded price in the relevant regulated market and/or the net asset value of such Investments, provided that the value of the Investment listed, traded or dealt in on a regulated market but acquired or traded at a premium or at a discount outside or off the relevant market may be valued taking into account the level of premium or discount as at the date of valuation of the Investment and the Fund Administrator must ensure that the adoption of such procedure is justifiable in the context of establishing the probable realisation value of the Investment. If the Investment is normally listed, traded or dealt in, on or under the rules of more than one regulated market, the relevant regulated market will be that which constitutes the main market for the Investment.

(f) If prices for an Investment listed, traded or dealt in on the relevant regulated market are not available at the relevant time or are unrepresentative, or in the event that an Investment is not listed or traded on any regulated market, such Investment will be valued at such value as will be certified with care and good faith as the probable realisation value of the Investment by a competent professional Person appointed by the Fund Manager.

(g) Units in collective investment schemes/investment funds, including ETFs, which are not valued in accordance with the provisions above will be valued on the basis of the latest available Net Asset Value per Unit as published by the collective investment scheme/investment fund.

(h) Cash deposits and similar Investments will be valued at their face value together with (i) accrued interest in respect of each Sub-Fund other than Shari'a-Compliant Sub-Funds or (ii) accrued profit in respect of each Shari'a-Compliant Sub-Fund, unless in each case in the opinion of the Fund Administrator any adjustment should be made to reflect the fair value thereof.

(i) The Fund Administrator may calculate the Net Asset Value per Unit adjusted as it determines necessary to reflect the fair value in the context of currency, marketability, dealing costs and such other considerations which are deemed relevant by it. Any amendment to the Net Asset Value per Unit outside of the ordinary course of calculation of the Net Asset Value, including correction of an error or amending a previously published Net Asset Value, is subject to the prior approval of the SCA.

(j) In the event of it being impossible or incorrect to carry out a valuation of a specific Investment in accordance with the valuation rules set out above or if such valuation is not representative of an Investment's fair market value, the Fund Manager may appoint a reputable and recognized valuation firm in the UAE to value that specific Investment in accordance with an established valuation method and such method used will be clearly documented.

(k) There is no assurance that the Investments will be calculated and published on the basis described in this Prospectus and Investment Providers may from time to time amend the manner in which an Investment is calculated or information relating to an Investment is published. The past performance of each Investment is not necessarily an indication as to future performance.

16.2 **Temporary Suspension of Valuation**

(a) The Fund Manager may temporarily suspend the determination of the Net Asset Value upon the occurrence of an event causing the termination of any Sub-Fund in accordance with Section 26.3 or upon the occurrence of any of the following events:

(i) other than ordinary holiday or customary weekend closings, when any market is closed which is the main market for a significant part of the Sub-Fund's Investments which would entail a minimum of 5% or any other percentage determined by the Fund Manager or when trading thereon is restricted or suspended;

(ii) when, as a result of political, economic, military, sanitary (epidemics or pandemics) or monetary events or any circumstances outside the control or responsibility of the Fund Manager, disposal or valuation of 5% or more of the Investments of the Sub-Fund is not reasonably practicable without being seriously detrimental to the interests of the Investors in the Sub-Fund;

(iii) during which the disposal or valuation of Investments which constitute 5% or more of the Investments of the Sub-Fund is not practically feasible or if feasible would be possible only on terms materially disadvantageous to the interests of the Investors in the Sub-Fund;

(iv) when, for any reason, the prices of any Investments which constitute 5% or more of the Investments of the Sub-Fund cannot be reasonably, promptly or accurately ascertained by the Fund Administrator;

(v) when the remittance of monies which will, or may, be involved in the realisation of, or in the payment for, Investments which constitute 5% or more of the Investments of the Sub-Fund cannot, in the opinion of the Fund Manager, be carried out at normal rates of exchange;

(vi) when the proceeds of the sale or repurchase of the Units which constitute 5% or more of the Investments of the Sub-Fund cannot be transmitted to or from the Sub-Fund's account; or

(vii) where the Fund Manager considers it to be in the best interests of the Investors or the Sub-Fund.

(b) The Fund Manager will obtain approval from the SCA prior to any suspension of the determination of the Net Asset Value other than in the ordinary course of business on days other than Business Days, and will promptly notify any suspension of the determination of the Net Asset Value to affected Investors of the relevant Sub-Fund and any other markets which the Fund Manager is required to notify in accordance with Applicable Laws. The Fund Manager will use its reasonable efforts to minimize the duration of a suspension of the determination of the Net Asset Value.

17. MANAGEMENT FEE AND FUND ADMINISTRATOR FEE; OTHER FEES, CONTRIBUTIONS AND EXPENSES; INVESTOR COSTS

17.1 Management Fee and Fund Administrator Fee

(a) The Fund Manager will receive an annual management fee from each Sub-Fund for so long as the Fund Manager is appointed as the fund manager of the Fund (the **Management Fee**), calculated daily and payable quarterly in arrear by each Sub-Fund in an amount equal to 1% of the Net Asset Value of such Sub-Fund (exclusive of VAT), as summarized in clause (b) below.

(b) The applicable Management Fee of each Sub-Fund is as follows:

Sub-Fund	**Management Fee** (annual % of Net Asset Value, exclusive of VAT)
Capital Protection Sub-Fund	1.00%
Shari'a-Compliant Capital Protection Sub-Fund	1.00%
Global Conservative Sub-Fund	1.00%
Shari'a-Compliant Global Conservative Sub-Fund	1.00%

Shari'a-Compliant Global Balanced Sub-Fund	1.00%

(c) The Fund Administrator will receive an annual fee from each Sub-Fund for the provision of administration services to such Sub-Fund for so long as the Fund Administrator is appointed as the fund administrator of the Fund (the **Fund Administrator Fee**), calculated daily and payable quarterly in arrear by each Sub-Fund in an amount not to exceed 1% of the Net Asset Value of such Sub-Fund (exclusive of VAT) as disclosed to each Investor prior to their investment in such Sub-Fund.

(d) The Fund Manager may in its discretion amend the amount of the Management Fee and the Fund Administrator Fee in respect of each Sub-Fund, subject to the approval of the SCA and in accordance with Applicable Laws.

17.2 **Employer Contributions**

(a) Each Employer that becomes an Investor in the Capital Protection Sub-Fund or the Shari'a-Compliant Capital Protection Sub-Fund will make an additional contribution to such Sub-Fund for the duration of any period, measured in days, during which the Base Rate is 2% or lower (the **Capital Protection Cost Coverage Contribution**). The Capital Protection Cost Coverage Contribution will be calculated monthly and payable quarterly in arrear in an amount equal to 1% of Basic Contribution of each Employer due to each of the Capital Protection Sub-Fund and the Shari'a-Compliant Capital Protection Sub-Fund for the duration of such period during which the Base Rate is 2% or lower.

(b) The purpose of the Capital Protection Cost Coverage Contribution is to provide additional liquidity to the Capital Protection Sub-Fund and the Shari'a-Compliant Capital Protection Sub-Fund to pay the applicable fees, costs and expenses of such Sub-Funds in the event that, as a result of a low interest rate environment, such Sub-Funds generate insufficient returns on their Investments to pay such fees, costs and expenses.

(c) The Employer will be responsible for payment of the Capital Protection Cost Coverage Contribution and the Capital Protection Cost Coverage Contribution will be separate and in addition to the Onboarding Fee and the Member Charge, to the extent applicable. The Capital Protection Cost Coverage Contribution is not an Investor Cost and, where it applies, is an additional and separate contribution payable by all Investors that are Employers. For the avoidance of doubt, no payment of Capital Protection Cost Coverage Contribution will (i) be applied to reduce or otherwise alter any amount of Investor Costs payable in respect of the Capital Protection Sub-Fund or the Shari'a-Compliant Capital Protection Sub-Fund (or any other Sub-Fund) or (ii) be used to acquire Investments for the Capital Protection Sub-Fund or the Shari'a-Compliant Capital Protection Sub-Fund (or any other Sub-Fund). The Capital Protection Cost Coverage Contribution will not be refundable to any Employer at any time, save in the case of overpayment, as set out in the Employer Participation Agreement.

17.3 **Employer Fees**

(a) The Fund Manager may charge a one-off administration, onboarding or similar fee to an Employer in an amount of up to fifty thousand Emirati dirhams (AED 50,000) in accordance with the terms of the Employer Participation Agreement between such Employer and the Fund Manager in respect of onboarding such Employer to the Lunate EOSB Scheme (the **Onboarding Fee**). Each Employer will be responsible for payment of the Onboarding Fee.

(b) The Onboarding Fee will be separate and in addition to the Member Charge. The Onboarding Fee is separate and distinct to the Capital Protection Cost Coverage Contribution. The Onboarding Fee is not an Investor Cost and is an additional and separate amount payable by Employers. For the avoidance of doubt, no payment of the Onboarding Fee will be applied to reduce, set-off or otherwise alter any amount of Investor Costs payable in respect of any Sub-Fund. The Onboarding Fee will be exclusive of VAT. The Onboarding Fee will not be refundable to any Employer.

17.4 **Member Charge**

(a) The Fund Administrator will apply an annual charge of ten US dollars (USD 10.00) (or its equivalent in AED), applied and payable on a *pro rata* basis for each month, for the purposes described in Section 21.2(c), as follows (the **Member Charge**):

(i) to each Employer for each Eligible Employee in respect of which such Employer pays Basic Contributions; and

(ii) to each Investor that is not an Employer so long as such Person is an Investor in the Fund.

(b) The Member Charge will be separate and in addition to the Onboarding Fee. The Member Charge is separate and distinct to the Capital Protection Cost Coverage Contribution. The Member Charge is not an Investor Cost and is an additional and separate charge payable by all Investors. For the avoidance of doubt, no payment of the Member Charge will be applied to reduce, set-off or otherwise alter any amount of Investor Costs payable in respect of any Sub-Fund. The Member Charge will be exclusive of VAT. The Member Charge will not be refundable to any Investor to which it applies.

17.5 **Expenses**

(a) The Fund Manager will be responsible for its own normal and recurring routine operating expenses, including compensation of staff and costs of office space, office equipment, communications and utilities. For the avoidance of doubt, legal, taxation, consulting and other professional services that the Fund Manager renders in respect of the Fund will not be considered normal operating expenses and all or a portion of such expenses will constitute an Operating Expense; provided, that such services are not activities the Fund Manager is required to provide to the Fund pursuant to Applicable Laws.

(b) All Operating Expenses in respect of each Sub-Fund will be borne by the Fund Administrator, which will pay such Operating Expenses in respect of each Sub-Fund out of the Fund Administrator Fee it receives from such Sub-Fund.

(c) In the event that the Operating Expenses of any Sub-Fund exceed the Fund Administrator Fee, the Fund Administrator will pay such Operating Expenses from its own assets. 22. RISK FACTORS

In considering participation in the Fund, including any Sub-Fund, each prospective Investor should be aware of certain risk factors set out in this Section 22 (*Risk Factors*).

Additional information in respect of the investment objectives and investment policies of each Sub-Fund is set out in the Supplement issued in respect of such Sub-Fund.

22.1 **Investment Risk**

The Investments of each Sub-Fund will primarily comprise investments in funds and other pooled vehicles, which in turn will have investments in underlying securities and assets. The performance of

such underlying securities and assets is difficult to predict and certain Investments may involve a high degree of business and financial risk that can result in substantial losses.

The returns and overall performance of each Sub-Fund will not reflect the performance of all of the Investments of such Sub-Fund, as the Fund and each Sub-Fund will be subject to certain fees, costs, expenses, taxes and liabilities, including Operating Expenses and Management Fees. Sub-Funds may also hold Temporary Investments and cash from time to time, in accordance with the terms of this Prospectus. This will adversely impact the returns of each Sub-Fund.

No assurance is made that any Sub-Fund will achieve its investment objective or target return as a result of making the Investments.

22.2 Market Risk

Investments that may be acquired by any Sub-Fund will be located in or have underlying investments in different jurisdictions globally, which exposes the Sub-Fund to economic and market conditions in those countries. The value of the Investments may be adversely affected by a number of local market conditions, such as supply and demand and the performance of other competing businesses and assets. As a result, the revenue and results of the Fund and each Sub-Fund depend, to a large extent, on the performance of the economies of the jurisdictions in which the Sub-Fund invests and any economic decline in these jurisdictions could adversely affect the operations and future growth of the Fund or any Sub-Fund. A significant adverse change in the economy of one country, or a loss of investor confidence in the financial systems of markets in that country generally, could also cause increased volatility in the economy and financial markets of such country and other countries and, as a result, have an adverse effect on one or more Investments.

22.3 No Assurance of Return on Investment

The Fund Manager cannot provide assurance that it will be able to select, make or realize Investments. There is no assurance that any Sub-Fund will be able to generate returns for its Investors or that the returns will be commensurate with the risks of investing in the transactions described in this Prospectus. There can be no assurance that projected or targeted returns for any Sub-Fund will be achieved or that an Investor will receive a return of its investment in any Sub-Fund.

There can be no assurance that any forecast by the Fund Manager in respect of the prospects of any Investment will be accurate or that any Sub-Fund will achieve its investment objective. Investors may lose any or all of their capital invested in any Sub-Fund and an investment in any Sub-Fund should only be considered by Persons who can afford a loss of their entire investment.

22.4 Future and Past Performance

The performance of the prior investments of any Fund Party or of any other investment vehicle operated or managed by the Fund Manager is not necessarily indicative of the future results of the Fund or any Sub-Fund. Descriptions of Investments in any other offering or marketing materials furnished to Investors are for illustrative purposes only in respect of the approach and process of the Fund Manager to making investments. No Fund Party makes any guarantee that any Investment made by a Sub-Fund will be successful. No Fund Party can anticipate future market or economic conditions, which can have an adverse effect on any forecasts or projections on which the Fund Manager relies and the results of an Investment may vary substantially from financial forecasts. There can be no assurance that any Sub-Fund will generate investment returns consistent with the past performance of other investment vehicles managed or operated by the Fund Manager. Investors will bear certain fees, costs, expenses, taxes and liabilities as disclosed in this Prospectus, including the Investor Costs, the Member Charge and the Onboarding Fee, in respect of the Fund and each Sub-Fund, which may be significant and will impact any forecast performance in respect of an Investment. Although the Fund Manager intends for each Sub-Fund to make Investments that have estimated returns commensurate

with the risks undertaken, there can be no assurances that any target return metric will be achieved. Investors may lose all or part of their investment in any Sub-Fund.

22.5 **No Investor Control**

No Investor may take part in the management of the business of the Fund or any Sub-Fund and, accordingly, Investors will have no opportunity to control the day-to-day operation, including investment and disposition decisions, of any Sub-Fund. The Fund Manager will have sole discretion in structuring, negotiating and purchasing, financing and eventually divesting Investments on behalf of a Sub-Fund. Consequently, the Investors will generally not be able to evaluate for themselves the merits of particular Investments prior to any Sub-Fund making such investments, including (i) the terms of the acquisition of the Investment by the Sub-Fund; (ii) the type or location of the Investment; or (iii) other relevant economic and financial data affecting the Investment.

22.6 **Concentration Risk**

Each Sub-Fund will make a limited number of Investments, which could include exposure to a particular geography, sector, industry, security or currency. Additionally, certain Sub-Funds may invest in Investments that are operated, advised or managed by Lunate and its Affiliates. As a result, a Sub-Fund may have a concentrated portfolio of Investments, which is especially exposed to risks associated with a particular geography, sector, industry, security, currency or Investment Provider. This in turn could result in a substantial negative impact to the Fund or any Sub-Funds returns.

22.7 **Litigation Risk**

Investments may be governed by certain legal documents and contracts. Such documents may be subject to disputes over interpretation or enforceability resulting in consequent costs and delays. In addition, the Fund and any Sub-Fund may be subject to claims by third parties (either public or private), including legal action arising out of acquisitions or dispositions, workers' compensation claims and third-party losses. If any of the Investments becomes involved in material or protracted litigation, the litigation expenses and the liability threatened or imposed could have a material adverse effect on the Fund or any Sub-Fund.

22.8 **Limitation of Liability and Indemnification**

This Prospectus limits the potential liability of Lunate Persons in relation to the Fund. As a result, Investors and Employers may have a more limited right of action in certain cases than they would have in the absence of such provisions. This Prospectus also provides that the Fund will indemnify Lunate Persons for certain claims, losses, damages and expenses arising out of their activities, subject to the carve outs to limitation of liability and indemnification described herein, on behalf of the Fund or any Sub-Fund. Such indemnification obligations could adversely impact the returns to Investors.

22.9 **Market Conditions and Government Intervention**

Financial markets are generally considered to be in a more unstable period, due to volatile prices of securities, fluctuating foreign exchange rates and less stable economic conditions generally. This may limit the availability of viable or attractive Investments for any Sub-Fund, which may adversely affect the ability of the Sub-Fund to make or dispose of Investments or generate returns on Investments that allow the Sub-Fund to achieve its target returns and may affect the Sub-Fund's ability to make investments.

Government intervention in markets and the economy can include activity that has an adverse effect on the performance of certain financial markets and economies and lead to greater regulation of markets and market participants. Such government intervention may be unpredictable and could limit or otherwise unfavorably impact the performance of any Sub-Fund or their returns.

22.10 **Currency Risk and Hedging Transactions**

No Sub-Fund is under any obligation to engage in hedging transactions. Investors should expect to bear the risk of currency fluctuations. Each Sub-Fund will be denominated in AED. Investors should be aware that all returns will be distributed in AED and that if their reference currency is another currency their investment in any Sub-Fund may be adversely affected by any reduction in the value of the AED relative to their reference currency. They may also incur the further transaction costs of converting AED into another currency. Such Investors are strongly urged to consult their financial advisers with a view to determining whether they should enter into hedging transactions to offset these risks.

A Sub-Fund may make Investments which are not denominated in AED or which have future cash flows that are not denominated in AED. It is impossible to hedge currency risk perfectly where the magnitude and timing of future cash flows can only be estimated and is not known with certainty. Thus, prudent currency hedging policies can serve to minimise or reduce risk, but not to eliminate the risks of currency fluctuations altogether. There can be no assurance that techniques used in currency hedging will always be available or be available on terms that are commercially acceptable to the Fund Manager, that the Fund will engage in these techniques when available, or that the hedging strategies will be successful in limiting the risks of currency fluctuations. The Sub-Funds may acquire hedging products and services at the relevant Sub-Fund's expense.

Additionally, hedging transactions themselves entail other risks that may result in a Sub-Fund obtaining a lower overall performance than if it had not entered into any such transactions. Any costs incurred in entering into hedging transactions will be borne by the Sub-Fund in relation to which the hedging transaction was undertaken. If the same hedging transaction is undertaken for the benefit of more than one Sub-Fund, the costs of such hedging transaction will be allocated among the relevant Sub-Funds *pro rata* in relation to their interests in the underlying Investment(s), or in such other equitable manner as determined by the Fund Manager in its discretion.

22.11 **Insolvency Risk**

The insolvency of any of the Investment Providers or an underlying investment of any Investment could have a material and adverse effect on the Fund and/or any Sub-Fund and its operations and ability to achieve its investment objective.

22.12 **Potential Loss of Investment**

An investment in any Sub-Fund is speculative and involves risks that may be substantial, including the risk of entire loss of the investment in the Fund or any Sub-Fund by an Investor.

22.13 **Reliance on the Fund Manager**

The Fund has no operating history and will be dependent on the Fund Manager. The Fund Manager will have control over the operation of the Fund and the future returns of the Fund and each Sub-Fund will depend upon the business and investment acumen of the Directors, officers, managers and employees of the Fund Manager. A change in the time and attention devoted by such Persons to the Fund or any Sub-Fund or the departure of one or more such Persons from the Fund Manager could have an adverse effect on the ability of the Fund or any Sub-Fund to achieve its investment objectives or target returns. Such Persons currently, and may in the future, manage or be involved in other investment mandates of the Fund Manager or its Affiliates other than the Fund and may need to devote substantial amounts of their time to the activities of such other investment mandates, which may pose conflicts of interest in the allocation of the time of such Persons. The Fund Manager will at all times maintain services to the Fund that it deems appropriate in the circumstances. Investors do not have authority or power to take part in the management or operation of the Fund or any Sub-Fund, so the investment performance of each Sub-Fund will depend on the actions of the Fund Manager. A change

of circumstances relating to the Fund Manager, including for example a force majeure event, may have an adverse effect on the Fund or any Sub-Fund or any Investment.

Although the Fund Manager will monitor the performance of each Investment, the day-to-day operation and management of each Investment will be performed by the Investment Provider thereof. There can be no assurance that any Investment Provider will be able to successfully manage or operate any underlying investment of an Investment and the Fund Parties provide no assurances in respect of the performance of any Investment Provider, any Investment or any underlying investment.

22.14 **Limited Investor Access to Information**

The Fund Parties may obtain information in respect of Investments that the Fund Manager and the Fund will not be able to disclose to any Investors due to confidentiality or other legal or contractual restrictions applicable to one or more of the Fund Parties. The withholding of such information by a Fund Party may make it difficult for Investors to monitor the Fund, any Sub-Fund and its performance and, in turn, may have adverse consequences for such Investors.

The Fund Manager generally seeks to ensure all Investors receive the same material information, though circumstances may arise that result in the Fund Manager providing certain information to one or more Investors or prospective Investors that it does not provide to all Investors or prospective Investors, as Investors and prospective Investors may request different information from a Fund Party or request information from a Fund Party at different times. No additional information provided is or will be integrated into this Prospectus, and no prospective Investor should rely on any such answers or information obtained that is not included in this Prospectus in making its decision to subscribe for interests in the Fund or any Sub-Fund. Such information may affect a prospective Investor's decision to invest in the Fund or any Sub-Fund or take actions or make decisions as an Investor.

The Fund Manager is permitted to withhold confidential information or other information and materials from any Investor if the Fund Manager determines that such disclosure is not in the best interests of the Fund, any Sub-Fund, any Investor or any Investment or is not permitted by Applicable Laws.

The information rights of Investors regarding the Fund Parties are set out in this Prospectus.

22.15 **Valuations and Calculation of Net Asset Value**

Some or all of the Investments or the underlying investments thereof will be illiquid and not quoted on any exchange, therefore market quotations will generally not be available for the Investments.

For the purposes of accurately valuing Investments or calculating the Net Asset Value in accordance with the terms of this Prospectus, the Fund Manager and the Fund Administrator may not have all the information necessary or required and there are no assurances that any information provided by third parties in respect thereof will be accurate or correct. The valuation of securities and assets where no market price or quotation is published or readily available is uncertain and any valuations obtained or provided by the Fund Manager or the Fund Administrator may differ to those that otherwise would be available in the market if a market price or quotation were available. This may affect the prices at which Investments are acquired and sold and could adversely impact the returns on Investments and the returns achieved by any Sub-Fund.

The discretion afforded to the Fund Administrator in respect of the valuation of Investments and calculation of the Net Asset Value may give rise to certain conflicts of interest, including in connection with determining the calculation of the Management Fee, which is related to the Net Asset Value. The Fund Manager also has an interest in a higher valuation of the Investments and Net Asset Value for the purposes of reporting the Fund's performance. The Fund Manager will, and will use its reasonable

efforts to procure that the Service Providers will, exercise diligence and maintain procedures and controls to mitigate such conflicts of interest as the Fund Manager in its discretion deems appropriate.

There is no assurance that the Investments will be calculated, valued and published on the basis described in this Prospectus, and Investment Providers may from time to time amend the manner in which an Investment is calculated or valued or information relating to an Investment is published. The past performance of each Investment is not necessarily an indication as to future performance.

22.16 **Limited Transferability and Redemption**

There will be no public market for the Units and there are substantial restrictions on the redemption and transferability of Units pursuant to the terms of this Prospectus and Applicable Laws.

22.17 **Lack of Operating History**

New and recently established Sub-Funds have not commenced operations and have no track record of making Investments. Prospective Investors therefore will have no data in respect of such Sub-Funds by which to assess or evaluate the likely returns or performance of such Sub-Funds. There is no assurance that any Sub-Fund will achieve its investment objective or avoid substantial losses.

The past performance of investment mandates and any other financial products managed, operated or otherwise offered by the Fund Manager or involving any Fund Party cannot be relied on as an indication of the performance of the Fund overall or any Sub-Fund in the future and there can be no assurance that the Fund, any Sub-Fund or any Investment thereof will succeed or generate any returns for Investors.

22.18 **Suspension of Subscriptions, Redemptions and Valuations**

In certain circumstances, as described in this Prospectus, the right of Investors to subscribe for and redeem Units may be suspended or their right to redeem or convert Units may be temporarily suspended. Where Investors are unable to redeem Units, they will bear losses for any decrease in value of their Units during such time, for example as a result of a decrease in value of Investments during such period. Conversely, where Investors are unable to subscribe for Units for a period, they may have to pay a higher subscription amount following such period, for example, as a result of an increase in the value of Investments during such time. As a result, the returns obtained by an Investor may be negatively affected and Investors may bear a loss on their investment in any Sub-Fund.

Calculation of the Net Asset Value of Units and the valuation of Investments may also be suspended from time to time, as described in this Prospectus. This may result in Investors not having up-to-date information in respect of the valuation of Investments and, in turn, their Units. This may influence the decision by an Investor or prospective Investor to subscribe for, redeem or maintain Units in a Sub-Fund or not to invest in a Sub-Fund. Consequently, the returns obtained by an Investor may be negatively impacted and Investors may bear a loss on their investment in any Sub-Fund.

22.19 **Technology Risk**

The Fund Parties, the Service Providers and other market participants increasingly depend on complex information technology and communications systems to conduct business functions. These systems are subject to a number of different threats or risks that could adversely affect the Fund, any Sub-Fund and the Investors, despite the efforts of the Fund Parties to adopt technologies, processes and practices intended to mitigate these risks and protect the security of their computer systems, software, networks and other technology assets, as well as the confidentiality, integrity and availability of information belonging to the Fund, the Sub-Funds and the Investors. For example, statements, reports and other communications relating to the Fund and the Units will be provided in electronic form, such as email or via a password-protected website and these may be modified, corrupted, or contain viruses or

malicious code, may not be compatible with an Investor's electronic system and may not be accessible to Investors, preventing timely receipt of fund notices and reporting. Third parties may also attempt to fraudulently induce employees, customers, third-party service providers or other users of the Fund Parties' systems to disclose sensitive information, to gain access to the Fund Parties' data or that of the Investors, or disrupt the operations of the Fund Parties, the Service Providers and other counterparties, which could result in the loss or theft of an Investor's data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system or costs associated with system repairs. Such incidents could cause the Fund Parties or any Service Provider and, in turn, the Fund, to incur regulatory penalties, reputational damage, additional compliance costs or financial loss. Similar types of risks are also present for intermediary entities used by any Sub-Funds to hold Investments and may therefore cause one or more Investments to lose value.

22.20 **Umbrella Fund and Cross-Liability Risk**

The Umbrella Fund is not a separate vehicle or legal entity of its own. There is segregated liability between the Sub-Funds established in accordance with Applicable Laws. The Fund generally will not be liable as a whole to third parties, and there will not be any potential for cross-liability between the Sub-Funds. Notwithstanding the foregoing, there can be no assurance that, should an action be brought against any Sub-Fund in the courts of a jurisdiction other than the UAE, the segregated nature of the Sub-Funds would necessarily be upheld. Each Sub-Fund will be responsible for paying its allocable portion of the Management Fee in accordance with the terms of this Prospectus irrespective of its returns.

22.21 **Taxation**

Prospective Investors should consider the risks associated with taxation in respect of investing in the Fund. See Section 24 (*Taxation*).

22.22 **US Securities Law and Regulatory Considerations**

Neither the Fund nor any Sub-Fund will be registered as an investment company under the 1940 Act. None of the Fund Parties is registered or intends to register as an investment adviser under the Investment Advisers Act of 1940. The Units have not been registered under the 1933 Act or the securities laws of any US state, nor is such registration contemplated.

Prospective Investors will be required to make certain representations and warranties, and the Fund's legal documents will contain restrictions on transfer, designed to ensure that the conditions relating to the foregoing exemptions will be met. The Fund Manager may require any prospective Investor or existing Investor in any Sub-Fund to withdraw in the event that such Investor or prospective Investor is unable or unwilling to provide or update such representations and warranties.

22.23 **Employer Risk**

The failure of one or more Employers to contribute all or any part of the Basic Contributions in respect of an Investor on a timely basis in accordance with the Employer Participation Agreement of such Employer, this Prospectus and Applicable Laws may adversely affect the ability of a Sub-Fund to make Investments or have access to appropriate capital for the payment of applicable fees, costs, expenses, taxes and liabilities, including Operating Expenses and Management Fees. Similarly, if an Employer withdraws from the Lunate EOSB Scheme or any Sub-Fund, this will adversely impact the capital the Sub-Funds have available to deploy in Investments. This may make it more challenging for a Sub-Fund to realize its investment objective and, accordingly, may negatively affect Investor returns.

22.24 **Financial Institution Risk**

An investment in the Fund is subject to the risk that the Custodian, any Sub-Custodian or any other financial counterparty or intermediary holding some or all of the assets or cash of the Fund or any Sub-Fund defaults or fails to perform its obligations to the Fund or any Sub-Fund under the relevant agreement in place or pursuant to Applicable Laws. Such events can occur where the counterparty or intermediary becomes subject to insolvency, bankruptcy or similar proceedings or can occur in the event of fraud, misconduct, negligence, error or oversight or as a result of other market factors. Failure by a counterparty or intermediary to a Fund Party may result in the Fund Manager, the Fund Administrator, any Sub-Fund or any Service Provider being unable to access certain services or deposits on a permanent or temporary basis, resulting in a risk of loss to the Fund, each Sub-Fund and the Investors.

Any default or failure to perform obligations by a financial counterparty or intermediary in connection with the Fund may additionally negatively impact the ability of the Fund Manager to manage and operate the Fund, the Sub-Funds and the Investments, potentially resulting in losses, delays, increases in fees, costs and expenses and other adverse effects on the Fund, the Sub-Funds and the Investments. There can be no assurances that such events will not take place or that adequate legal protections exist in the contractual documents between the Fund Parties and any financial counterparties or intermediaries in connection with the Fund to mitigate any such negative resulting effects. As a result, Investors may bear losses or receive lower returns on their investment in a Sub-Fund.

22.25 **Risk Associated with Shari'a Compliance**

The Shari'a-Compliant Sub-Funds are guided and supervised by the Shari'a Adviser and the Shari'a Supervisory Committee in terms of Shari'a compliance. There may be more than one interpretation of Shari'a and Shari'a compliance of the Sub-Fund is as per the opinion of the Shari'a Adviser or the Shari'a Supervisory Committee of the Sub-Fund. Each prospective Investor should conduct its own due diligence as to the Shari'a compliance of the Sub-Funds in which it proposes to invest, by reading this Prospectus including its Supplements to ensure it is satisfied in respect of Shari'a compliance matters irrespective of the conclusions of the Shari'a Adviser or Shari'a Supervisory Committee.

22.26 **Risks Associated with the Capital Protection Cost Coverage Contribution**

In the event that the Base Rate is 2% or lower at any time, each Employer will be required to pay the Capital Protection Cost Coverage Contribution in respect of its Basic Contributions due to the Capital Protection Sub-Fund and the Shari'a-Compliant Capital Protection Sub-Fund in accordance with the terms of this Prospectus, including the relevant Supplements. All Investors should note that, in the event that an Employer does not pay the Capital Protection Cost Coverage Contribution when due, this may have an adverse effect on the Capital Protection Sub-Fund or the Shari'a-Compliant Capital Protection Sub-Fund, including reducing the liquidity of such Sub-Funds and negatively impacting the ability of such Sub-Funds to pay applicable fees, costs, expenses and any other liabilities. In turn, this could result in an adverse effect on the returns available to Investors and may result in Investors losing some or all of their investment in these Sub-Funds. Additionally, reduced liquidity resulting from the failure of an Employer to pay the Capital Protection Cost Coverage Contribution may adversely affect the ability of Investors to redeem their Units in these Sub-Funds in certain market conditions.

Each Employer should note that the obligations in respect of the Capital Protection Cost Coverage Contribution require each Employer to make payments to the Capital Protection Sub-Fund and the Shari'a-Compliant Capital Protection Sub-Fund in addition to its Basic Contributions due to such Sub-Funds in certain circumstances, as described in this Prospectus. No Capital Protection Cost Coverage Contribution paid to the Capital Protection Sub-Fund and/or the Shari'a-Compliant Capital Protection Sub-Fund will be refundable to the Employer at any time, save as set out in this Prospectus and the Employer Participation Agreement of such Employer. Failure by an Employer to pay the Capital

Protection Cost Coverage Contribution when due may result in the Employer being designated a Defaulting Employer (including the consequences associated therewith) in accordance with the terms of this Prospectus and the Employer Participation Agreement of such Employer.

22.27 **Risks Associated with the Member Charge**

Each Investor will be required to pay the Member Charge in accordance with the terms of this Prospectus, including the relevant Supplements. Notwithstanding that the Member Charge is not an Investor Cost, it is a charge borne by Investors and all Investors should note that the Member Charge will reduce any returns in respect of an investment in each Sub-Fund. Failure by an Employer to pay the Member Charge when due may result in the Employer being designated a Defaulting Employer (including the consequences associated therewith) in accordance with the terms of this Prospectus and the Employer Participation Agreement of such Employer.

22.28 **Risks Associated with the Fund Administrator Fee**

Each Investor will be required to pay the Fund Administrator Fee in accordance with the terms of this Prospectus, including the relevant Supplements, which amount may vary between Sub-Funds. All Investors should note that the Fund Administrator Fee shall form part of the Investor Costs (as is the case for the Management Fee) and will reduce any returns in respect of an investment in each Sub-Fund, with some Sub-Funds potentially being subject to a higher Fund Administrator Fee than other Sub-Funds as described in this Prospectus and the Supplements.

The Fund Administrator intends to pay all Operating Expenses for each Sub-Fund from the Fund Administrator Fee and intends to satisfy any Operating Expenses in excess of this amount from its own account. In the event that the Fund Administrator Fee is not sufficient to cover Operating Expenses and the Fund Administrator does not have sufficient liquidity to pay the Operating Expenses, this could result in a default by one or more Sub-Funds that in turn has a prejudicial impact on the returns or the investment of the Investors.

If the Operating Expenses are less than the Fund Administrator Fee, the Fund Administrator will retain the excess amount and no Investor will receive any credit of such excess and no such excess with be applied against any other Investor Costs.

22.29 **Inflation Risk**

Continuous or sudden increases in inflation and higher inflation generally have a negative impact on economies and financial markets. Increased rates of inflation have been prevalent in a number of countries and governments have undertaken certain measures in order to reduce or slow increases in inflation, including reducing fiscal or monetary stimulus and increasing interest rates. Such action can slow or limit economic activity and ultimately may not be successful in curbing inflation. Higher or increasing inflation could have an adverse effect on Investments or the underlying investments thereof and may consequently have a negative effect on the returns of any Sub-Fund.

22.30 **Geopolitical Risk**

Ongoing and potential global conflicts may continue to destabilize and disrupt certain economies and markets. For example, in February 2022, Russia invaded Ukraine resulting in an ongoing military conflict between the two countries that has caused significant disruptions to global trade, supply chains, commodity prices, financial systems and market sectors. The conflict has increased the risk of further regional or global conflicts and has prompted the imposition of sanctions and other restrictions on certain businesses and individuals connected to Russia and its allies, extending to the private sector and business transactions. Separately, in October 2023, the Hamas group launched an attack on Israel from Gaza, which has led to an ongoing armed conflict in Gaza involving Israel and various militant

groups. This conflict has resulted in broader regional instability, with potential to escalate further and ramifications of this conflict continue to evolve.

These conflicts, together with other actual or potential global conflicts, may have an adverse impact on the Fund, its Sub-Funds, Investments and their underlying investments. Returns to any Sub-Fund from an Investment could be adversely affected by exposure to an affected jurisdiction, market, sector, currency, commodity or business and it is not possible to accurately predict the ultimate impact of these conflicts and their effect on economies, global markets and trade, which could further adversely impact the Fund, any Sub-Fund and their Investments in the future.

22.31 **Climate Risk**

Global climate change is generally considered to be a material risk to the economy globally. Government agreements and legal and regulatory changes driven by international climate change goals may restrict, limit, increase costs of or otherwise impact the activity of businesses underlying Investments. Ongoing climate change developments may also present litigation risks and reputational risks among certain businesses that underpin Investments and prompt broader market changes. These factors and other unanticipated risks related to climate change may negatively impact the returns a Sub-Fund can achieve in the future.

22.32 **Reference Rate Risk**

The Fund, the Sub-Funds and the Investments may be exposed to, for example by acquiring Investments that comprise certain financial products, financing arrangements, hedging arrangements or other investment activity that rely on a variable interest rate that references the London Interbank Offered Rate, the Euro Interbank Offered Rate, the Secured Overnight Financing Rate or the Sterling Overnight Index Average or any other benchmark, index or reference rate. The London Interbank Offered Rate was terminated and replaced in 2023 following the manipulation of the benchmark rate and subsequent regulatory reform of reference rates in the financial services sector. The Fund Parties and the Investments may still have exposure to underlying products that reference the London Interbank Offered Rate and the termination of and transition away from such rate could present certain risks to the Fund, the Sub-Funds, the Investments and their underlying investments including, increased financing costs, lower value of financial instruments, uncertainty in respect of transaction documentation, higher operational costs and greater illiquidity and volatility in financial markets. Additionally, other benchmarks, indices and reference rates on which any Fund Party relies may be at risk of failure or manipulation that could have an adverse effect on Investments and the returns to Investors.

22.33 **International Trade Risk**

Changes to international trading relationships may adversely affect global and regional economies and markets. For example, in January 2020, the UK formally withdrew from the EU and, following the end of a transition period on 31 December 2020, EU rules no longer apply in the UK. As a result of a trade and cooperation agreement between the UK and the EU, each has more limited access to the other's market and there continues to be uncertainty around the scope of market access of the UK to the EU and vice-versa, particularly in respect of the financial services sector. Arrangements in place are subject to legal uncertainty and the risk of further change under future legislation, creating regulatory uncertainty. The ongoing trade and financial arrangements between the UK and the EU may impact other third countries and result in more limited access to EU and UK markets from those countries. This, in turn, may impact the performance of Investments that are connected to the UK or the EU and may restrict or otherwise limit access to potential Investments. This may prevent or hinder any Sub-Fund from achieving its investment objectives or target returns. There is no assurance of the future trading relationships between any countries or international markets, including the UK and the EU, and continued uncertainty and changes to trading relationships globally may adversely impact the

ability of a Sub-Fund to make, hold or dispose of certain Investments or prospective Investments or to achieve its target return on such Investments.

22.34 **Privacy and Data Protection Risk**

The Fund Parties are subject to laws and regulations related to data protection, transfer of data, privacy and information security in certain jurisdictions. Compliance with such laws and regulations may require adhering to various obligations that increase the costs of the Fund and failure to comply can result in substantial fines and other enforcement actions from regulators, as well as reputational harm to the Fund Parties and potential claims from third parties. Further, such laws and regulations are subject to change, which may increase compliance costs and the risks associated with non-compliance by a Fund Party or any business that underlies an Investment. These additional costs of the Fund and its Sub-Funds may reduce the returns on Investments and therefore impact the ability of a Sub-Fund to achieve its target returns for Investors.

22.35 **Anti-Money Laundering, Counter-Terrorist Financing, Anti-Corruption and Sanctions and "Know Your Client" Risk**

Anti-corruption, anti-money laundering, counter-terrorist financing, anti-boycott and economic and trade sanction laws and regulations in different jurisdictions may prevent the Fund Parties from entering into transactions with certain individuals or jurisdictions.

The US Foreign Corrupt Practices Act and the UK Bribery Act 2010 and other anti-corruption and anti-bribery laws impose obligations and restrictions on businesses and individuals in respect of preventing bribery and corruption and prohibiting certain conduct. Trade and economic sanctions laws and regulations administered by governments and related authorities, including the US Department of the Treasury's Office of Foreign Assets Control, restrict or prohibit certain trade, economic and business activity, including investment in certain jurisdictions, sectors and securities and transactions with certain Persons. This, in turn, may limit the ability of a Sub-Fund to make, hold or dispose of Investments and may restrict the ability of businesses underlying the Investments to undertake certain activity. This, in turn, may adversely affect the performance of Investments and the returns achieved by any Sub-Fund.

Such laws may impact the Investments, or any underlying investments thereof, as the Fund Parties, the Investment Providers and businesses to which Sub-Funds are exposed through the Investments may have additional compliance obligations that affect their decisions and operations. The Fund Parties must also monitor these regulatory and legal obligations on a global basis, which are subject to change and may conflict with each other between jurisdictions, to ensure ongoing compliance, which may result in increased costs to the Fund and the Sub-Funds. Additionally, any breach of such laws by businesses that underpin the Investments, or by the Fund Parties, may result in an adverse effect on any of the Fund, the Sub-Funds and the Investments. This may have a negative impact on the returns of any Sub-Fund.

The Fund may be adversely impacted by the unwillingness or the inability of the Fund Manager to participate in Investments that may present a risk of breaching such laws and regulations or exposure to an underlying investment that may breach such laws and regulations. The Fund Manager may choose to dispose of all or part of an Investment or not to pursue an investment opportunity due to the impact of such laws and regulations. Any disposal of an Investment on this basis may be at a less favorable or below market price, which will negatively impact any returns on such Investment and the returns of the relevant Sub-Fund.

In order to comply with anti-money laundering, anti-terrorist financing and similar "know you client" laws, rules and regulations, the Fund Manager or the Fund Administrator will be required to verify a prospective Investor's identity prior to admitting such Person as an Investor, which may include

requiring certain information and documentation from the prospective Investor. Any failure by a prospective Investor to provide such information and documentation for verification purposes may result in the Fund Manager or the Fund Administrator, as applicable, refusing to admit such Person as an Investor.

Further, Investors will be required to provide to the Fund Manager or the Fund Administrator, as applicable, additional information as from time to time may be required or requested by the Fund Manager or the Fund Administrator to satisfy its obligations under these laws and any changes to the law in the future. The Fund Manager or the Fund Administrator, as applicable, will require each Investor to make representations and warranties with respect to compliance with anti-money laundering, anti-terrorist financing, sanctions and similar laws and regulations. Where an Investor becomes subject to sanctions, breaches Applicable Laws or may cause any Fund Party to breach Applicable Laws, the Fund Manager may be required to take certain actions in respect of such Investor without notice, including restricting or terminating any activity with the Investor or in respect of the Investor's Units or freeze such Investor's Units, Basic Contributions, Voluntary Contributions or any redemption proceeds. No Fund Party has any liability for any liabilities, costs, expenses, damages or losses incurred by any Investor in such circumstances and Investors may be adversely affected by such events, including where other Investors are subject to such restrictions or actions.

23. POTENTIAL CONFLICTS OF INTEREST

23.1 Certain scenarios may arise where the interests of the Fund conflict with interests of one or more of the Lunate group entities, funds or other investment arrangements managed or operated by Lunate or Lunate management and staff. In considering participation in the Fund, including any Sub-Fund, each prospective Investor should be aware of certain potential conflicts of interest set out in this Section 23 (*Potential Conflicts of Interest*), which should be carefully evaluated before making an investment in the Fund.

The Fund Manager will, and will use its reasonable efforts to procure that the Service Providers will, exercise diligence and maintain such procedures and controls as the Fund Manager deems appropriate to mitigate actual conflicts of interest that the Fund Manager determines in its discretion are reasonably likely to have a material adverse effect on the Fund, any Sub-Fund or the Investors as a whole. The Fund Manager will always seek to act in the best interests of the Fund and the Investors as a whole, including management of conflicts of interest and conducting the Fund's business on an arms' length basis as and where it determines appropriate, acting reasonably in the circumstances, and adhering to Applicable Laws in respect of conflicts of interest.

By acquiring Units, an Investor will be deemed to have acknowledged the existence of such potential or actual conflicts of interest. The summary below is not a complete or exhaustive list or explanation of all conflicts of interest that may arise in respect of the Fund.

23.2 Management of Conflicts of Interest

Potential or actual conflicts may include those that arise between (a) the interests of Investors and the interests of investors in other Lunate Funds, (b) the interests of Investors of the Fund or any Sub-Fund and (c) the interests of Lunate Persons and some or all of the Investors.

The Fund Manager will seek to identify potential and actual conflicts of interest in relation to the Fund and manage them consistently with Lunate's conflicts of interest policy.

In the event that any conflicts of interest arise, the Fund Manager will endeavour to ensure that they are resolved fairly, taking into account the respective interests of the parties involved, including seeking to act in the best interests of the Fund to the extent practical in the determination of the Fund Manager. A Sub-Fund may be prevented from entering into one or more Investments as a result of the management of conflicts of interest by the Fund Manager or a potential investment opportunity may

instead be offered to another Lunate Fund or for the own account of the Fund Manager or its Affiliates. The management of actual or potential conflicts of interest may result in an adverse effect on the performance of the Fund or any Sub-Fund.

23.3 Conflicts of Interest between the Fund and other Lunate Funds and Investments by Lunate

Lunate and its Affiliates currently manage, operate and advise other Lunate Funds that may have overlapping investment strategies with, or compete with, the Fund or any Sub-Fund. Lunate and its Affiliates may manage, operate or advise additional Lunate Funds in the future that target investments similar to the Investments. Additionally, Lunate and its Affiliates may sponsor other Lunate Funds that could compete with the Sub-Funds or which invest in securities or other instruments related to the Investments. If an investment opportunity of a Sub-Fund falls within both the investment strategy and guidelines of that Sub-Fund and the investment strategy and guidelines of another Lunate Fund, Lunate will use its reasonable efforts to ensure any potential conflicts in respect of allocation are resolved on a fair and equitable basis for the Investors and the investors of such other Lunate Fund, as determined by Lunate in its discretion, considering a range of factors relating to the relevant Sub-Fund and the relevant Lunate Fund.

There is no prescribed limit on the size or number of Lunate Funds or the funds or other investment vehicles or accounts in which Lunate and its Affiliates may invest. Lunate and its Affiliates may also from time to time invest in investment funds or other investment vehicles or participate in similar investment mandates that may have overlapping investment strategies with, or compete with, the Sub-Funds and other conflicts of interest may also arise between the Fund, the Sub-Funds and any other Lunate Fund. If any matter arises that the Fund Manager determines constitutes an actual conflict of interest, the Fund Manager may take such actions as may be necessary or appropriate to remedy the conflict, which actions may include disposing of the security giving rise to the conflict of interest or appointing an independent fiduciary.

Any Sub-Fund may, from time to time, acquire or sell Investments from or to other Lunate Funds or invest directly or indirectly in one or more Lunate Funds. The Sub-Funds may also invest in opportunities alongside one or more other Lunate Funds. Any such transactions may give rise to conflicts of interest where a Sub-Fund and other Lunate Funds are investing in such Investment on a different basis or with different objectives.

Lunate Persons may be conflicted in respect of economic incentives resulting from a Sub-Fund acquiring Investments from or selling Investments to other investment funds or from a Sub-Fund investing in another Lunate Fund. Neither Lunate nor its Affiliates will be in breach of any obligation or duty to the Fund, any Sub-Fund or to any of the Investors or liable for any loss incurred by the Fund, any Sub-Fund or by its Investors, notwithstanding a conflict with its duties to, or the interests of, the Fund or Sub-Fund, in consequence of any decision not to proceed with an investment or not to pursue a co-investment opportunity for the Sub-Fund, or any decision to effect, advise on or participate in any other line of business (if any) or transaction on its own behalf or on behalf of any other Person including any investment fund or similar investment vehicle managed or advised by it.

Other than as described in this Prospectus, Lunate and its Affiliates are not restricted in the scope of their business as at the date of this Prospectus or in the future and such other activities of Lunate and its Affiliates could give rise to conflicts of interest. This includes establishment, fundraising and investment activities in respect of other Lunate Funds, which could result in parallel demands for the time, attention and resources of Lunate Persons. Neither Lunate nor any of its Affiliates will be under any duty or obligation to apply any of its other business or transactions for the benefit of the Sub-Funds or to disclose to the Sub-Funds or any Investors matters relating to its business and transactions that are not directly related to the Sub-Funds.

23.4 Conflicts of Interest involving Employers

The Fund Manager may enter into Employer Participation Agreements with certain Employers that are affiliated with Lunate or its Affiliates and affiliated Employers may thereby become participants in the Lunate EOSB Scheme. Such affiliated Employers and certain Lunate Persons may become Investors in one or more Sub-Funds. As a result, the Fund Manager may be conflicted in respect of its treatment of Employers and certain Investors. The Fund Manager will always seek to treat Employers and the Investors on a fair and equitable basis, which may require the Fund Manager exercising its discretion in making certain decisions with a view to achieving the best possible outcome for the Fund and the Investors as a whole in the circumstances.

Employers affiliated with Lunate that participate in the Lunate EOSB Scheme may also directly or indirectly provide advisory or other services to the Fund. To the extent that the Fund is seeking a provider of certain services, the Fund Manager may be incentivised to procure such services from an affiliated Employer that participates in the Lunate EOSB Scheme. The Fund Manager will exercise its discretion in respect of appointing Service Providers in a manner that seeks to achieve the best possible outcome for the Fund and the Investors as a whole in the circumstances.

23.5 Conflicts of Interest involving Lunate Persons

Lunate Persons that are individuals involved in the business of the Fund or any Sub-Fund may also have involvement and existing or future commitments in relation to other Lunate Funds, including providing management and advisory services. This may present a conflict of interest if there are demands on such Lunate Person's time, attention and resources between the Fund and another Lunate Fund simultaneously. Lunate will use its reasonable efforts to ensure that personnel involved in more than one Lunate Fund, including the Fund and any of its Sub-Funds, are staffed appropriately between such Lunate Funds in order to provide the appropriate level of time and attention to the business of such Lunate Fund, as determined by Lunate in its discretion.

Lunate Persons may include individuals that have family members or relatives with personal, professional or financial relationships with companies that gives rise to potential or actual conflicts of interest. For example, such family members or relatives might be involved in the management of or be employed by Investment Providers that provide actual or potential Investments or such family members or relatives may be involved in the management of or be employed by an Affiliate of Lunate that is an actual or prospective Employer. The Fund Manager will put in place such safeguards to mitigate against such potential or actual conflicts of interest as it deems appropriate in the circumstances, which may include maintaining internal information barriers or requiring the declaration of conflicts and recusal from certain meetings or decisions.

Lunate Persons may from time to time receive certain benefits, whether tangible or intangible, as a result of their activities on behalf of the Fund or the Fund Manager, which will not be applied to reduce the Management Fee and will not be shared with the Fund or any Investors otherwise. Such benefits could include discounts, loyalty points or similar benefits with third parties, by way of example. The Fund Manager will use its reasonable efforts to ensure that such benefits received by Lunate Persons are limited to benefits that the Fund Manager determines are minor or ancillary in nature and that such benefits do not have any influence on the material decisions of such Lunate Persons in respect of the management and/or operation of the Fund or any Sub-Fund or in respect of its Investments.

23.6 Conflicts of Interest involving Service Providers

The Fund Manager may appoint Affiliates to perform certain services in respect of the Fund, including to perform the role of certain Service Providers. Lunate is performing the role of Fund Manager and Fund Administrator. This arrangement may lead to certain conflicts of interest when compared with appointing an unaffiliated third-party service provider to provide such services to the Fund. For example, Lunate may be able to obtain preferential terms or pricing in respect of its appointment as Fund Administrator and generally the Fund Manager may be incentivized to select an Affiliate as a

Service Provider. Lunate seeks to ensure that any Affiliates that provide services to the Fund do so on an arm's length basis or on terms that are at least as favorable to the Fund as those the Fund Manager would have been able to obtain in the open market. Additionally, the Fund Administrator is supervised by the SCA in respect of its fund administration activities.

Certain industry specialists, consultants or other Persons with expertise or knowledge of the industry of the Fund and the sectors in which it invests may be retained by the Fund Manager to provide advice and services with respect to the activities of the Fund. Any such advisers or consultants will not be current Lunate Persons, their functions with respect to the Fund and its Investments will not be exclusive and they may perform similar roles for other organizations, which may give rise to conflicts of interest.

23.7 Conflicts of Interest between Investors

Investors may have conflicting investment, tax and other legal, regulatory and other requirements and preferences with respect to their participation in the Lunate EOSB Scheme and their investment in the Fund. The Fund Manager will consider the legal, regulatory, tax and similar requirements of the Fund and the Investors as a whole in making any decision in respect of the management and operation of the Fund and each Sub-Fund and their respective Investments.

23.8 Conflicts of Interest in respect of Costs and Expenses

The Fund Manager will determine whether costs and expenses are to be borne by the Fund or one or more Sub-Funds or by the Fund Manager or the Fund Administrator, including determining how certain Operating Expenses should be allocated between Sub-Funds or between Lunate Funds. Depending on the facts and circumstances, certain Operating Expenses may be shared between each of the Sub-Funds on a *pro rata* basis, rather than being allocated to a specific Sub-Fund, where the Fund Manager determines in its discretion that they are for the benefit of the Fund as a whole. Conflicts of interest may arise in allocating any such costs and expenses and the Fund Manager will consider the interests of the Fund and the Investors as a whole in making such determinations.

23.9 Conflicts of Interest in respect of Certain Transactions

Personnel that are Lunate Persons may trade in securities or other instruments for their own accounts, subject to restrictions and reporting requirements as may be required by Applicable Laws and any internal restrictions implemented by Lunate. This may include securities that are Investments or similar investments that provide exposure to the same companies, sectors, geographies or markets as the Fund or any Sub-Fund. A conflict of interest may arise where such personnel that are Lunate Persons are involved in the decision-making in respect of Investments. The Fund Manager will seek to ensure that any such personnel of Lunate Persons declare any such conflicts of interest.

23.10 Indebtedness

Sub-Funds may incur indebtedness in accordance with the terms of this Prospectus for purposes that include making Investments, paying Operating Expenses and satisfying liabilities of the Fund; provided at all times, that any such indebtedness in respect of Shari'a-Compliant Sub-Funds will be made through sources and methods compliant with Shari'a. Principal and interest and other costs of any such indebtedness will be an Operating Expense and may decrease net returns of the Fund or any Sub-Fund and affect the Net Asset Value of the Fund or a Sub-Fund. The Fund Manager may from time to time be incentivized to arrange for the Fund or a Sub-Fund to incur indebtedness at times, for example to manage liquidity of the Fund or any Sub-Fund, which may conflict with the investment objective of such Sub-Fund. The Fund Manager will always seek to use credit facilities in respect of a Sub-Fund in an appropriate manner, as it may determine in its discretion, and will always take into consideration the interests of the Fund as a whole and the Investors.

23.11 Representation by Legal Counsel

The same legal counsel may from time to time represent one or more Fund Parties as set out in this Prospectus. Legal Counsel's representation is limited to specific matters on which it has been consulted and there may be other matters that have a bearing on the Fund on which Legal Counsel has not been consulted. In the course of advising the Fund Parties there may be times when the interests of Investors may differ from those of the Fund. Legal Counsel does not represent the Investors, and no legal counsel will be retained on behalf of the Investors. Legal Counsel does not undertake to monitor compliance by the Fund or any Sub-Fund with its investment strategy or investment objectives, including any investment restrictions, or other procedures or matters set out in this Prospectus or the constituent documents of the Fund Parties, nor does Legal Counsel monitor on-going compliance with Applicable Laws. Legal Counsel has no responsibility to any Investor in relation to the content of this Prospectus and, accordingly, has no liability to any Investor in relation to this Prospectus. Legal Counsel does not represent any Investor in connection with the offering of Units and ongoing advice to the Fund and Lunate. No independent counsel has been retained to represent any Investors or prospective Investors.

23.12 Meetings of Investors

The Fund Manager may, from time to time, call a meeting of the Investors for the purpose of resolving a material actual conflict of a Sub-Fund, in accordance with Applicable Laws.

24. TAXATION

The following is intended as a general overview of key tax considerations relating to the ownership, acquisition and disposal of Units in the Fund and is based on existing law and guidance as of the date of this Prospectus, and is not exhaustive. This Prospectus, including this Section 24, does not constitute legal or tax advice and no assurance can be given that future legislation, rulings, tax authority guidance, practice or court decisions will not modify the conclusions set out in this summary, potentially with retroactive effect.

The tax-related comments below are based on information related to the present practice and Applicable Laws and applicable laws in other countries and are intended only to help prospective Investors in relation to their investment decisions regarding Units.

This Section 24 serves only to highlight certain tax matters in the context of the offering of the Units and does not take into account the particular circumstances of each prospective Investor and may not address considerations relevant to certain prospective or actual Investors, including where such prospective or actual Investors are subject to particular laws, rules or other requirements.

Investors should consider that due to change of laws or practices, and the potential that forecasts may not be achieved in relation to the position and treatment of the Fund or Investors by tax authorities in the different legislative jurisdictions, tax burdens imposed on Investors may vary from those set out herein. In all cases, prospective Investors should consult their professional advisers on potential tax burdens related to their subscription, purchase, ownership or sale of Units under Applicable Laws in their respective jurisdictions of domicile, residence and nationality.

It is the responsibility of all prospective Investors to inform themselves of any tax consequences of their investment in the Fund.

Income or gains of the Fund may be subject to withholding, income or other tax in the jurisdictions where investments are located. In addition, each Investor may be subject to filing requirements or liabilities for taxes as a result of an investment in the Fund. However, the Fund's investments will be structured in a manner that seeks to manage and minimize the Investors' tax filing obligations.

THIS SECTION DOES NOT PURPORT TO DESCRIBE ALL OF THE TAX CONSIDERATIONS THAT MAY BE RELEVANT TO ALL PROSPECTIVE INVESTOR OR TO INVESTORS SUBJECT TO SPECIFIC REQUIREMENTS OR TAX TREATMENT AND DOES NOT CONSTITUTE LEGAL, ACCOUNTING OR TAX ADVICE. ACCORDINGLY, EACH PROSPECTIVE INVESTOR SHOULD CONSULT THEIR OWN LEGAL AND TAX ADVISER TO DETERMINE THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF UNITS.

24.1 UAE Corporate Tax

(a) In December 2022, the UAE enacted that UAE CT Law, pursuant to which a new corporate tax applies to certain persons that are (i) resident in the UAE, or (ii) non-resident in the UAE, but (A) derive UAE sourced income, (B) have a permanent establishment in the UAE or (C) have a nexus to the UAE. The UAE CT Law is effective for financial years starting on or after 1 June 2023.

(b) In general, the UAE CT Law applies scaled corporate tax rates of 0% on taxable income up to AED 375,000 and a 9% corporate tax rate on the excess taxable income. The UAE CT Law also intends to impose an additional top-up tax rate for large multinationals that meet specific criteria set with reference to "Pillar Two" of the OECD Base Erosion and Profit Shifting project such that their effective corporate tax rate is 15%.

(c) The UAE CT Law is untested, and some aspects remain uncertain pending issuance of relevant Ministerial Decisions, Cabinet Decisions, and guidance from the FTA. Consequently, it is not entirely clear as to how the UAE CT Law will apply to the Umbrella Fund (including its Sub-Funds and Investors).

24.2 UAE Corporate Tax Considerations Relevant for the Umbrella Fund and the Sub-Funds

(a) The Umbrella Fund is registered with the SCA and is an entity without legal personality and therefore is not expected to be regarded as a "Person" for the purposes of UAE corporate tax personality. In addition, the Umbrella Fund has not made an election to be treated as a juridical person. As such, the Umbrella Fund is expected to be treated as a fiscally transparent vehicle for UAE corporate tax purposes and not subject to tax under the UAE CT Law.

(b) Each of the Sub-Funds are registered with the SCA and each Sub-Fund has separate legal personality and is expected to be regarded as a Taxable Person for UAE CT Law purposes. A UAE taxable person is subject to a corporate tax rate of 9% on taxable income in excess for AED 375,000 under the UAE CT Law. However, it is intended for the Sub-Funds to be managed and operated as Private Social Security Funds for UAE corporate tax purposes, subject to successful application and registration with the FTA.

(c) Private Social Security Funds are eligible to file an application with the FTA to be exempt from UAE corporate tax subject to meeting the prerequisite conditions. It is expected that the Sub-Funds will meet the required conditions and submit the application to be exempt from UAE corporate tax under UAE CT Law.

24.3 Certain UAE Corporate Tax Considerations Relevant for UAE Resident Investors

(a) In general, Investors that are natural persons are expected to be exempt from UAE corporate tax on their income and gains received from or through the Umbrella Fund (irrespective of whether they are regarded as Taxable Persons due to a separate business or business activity in the UAE).

(b) Each Investor is advised to independently assess with their own tax counsel whether they are regarded as a Taxable Person for UAE corporate tax purposes and/or whether they may be eligible for any specific exemption (based on the profile of such UAE Investor).

(c) Where an Investor is an Employer and UAE resident Taxable Person, such Investor may be eligible for a corporate tax deduction in connection with its participation in the Lunate EOSB Scheme (arising under applicable UAE EOSB Fund Laws), provided that the expense may be recognized under the applicable accounting standards (including International Accounting Standard 19 – Employee Benefits) or, in certain cases, upon cash payment, in the case that cash basis of taxation is permissible to such Employer. Further, such Investor may be subject to corporate tax in connection with income and gains (or losses) recognized in connection with holding Units to the extent recognized in its financial statements prepared under applicable accounting standards (including a statement of profit and loss and other comprehensive income prepared under IFRS). The corporate tax implications associated with such income and gains depend on a variety of factors, including details of recognition under applicable accounting standards. Employers should consult with accounting and tax advisors to determine the specific implications applicable to their respective circumstances.

24.4 **Certain UAE Corporate Tax Considerations Relevant for Non-UAE Resident Investors**

(a) The Fund Manager intends to operate the business of the Umbrella Fund and each Sub-Fund to ensure that no Investor is treated as carrying on a business in the UAE for UAE corporate tax purposes or as having a permanent establishment in the UAE solely as a result of holding Units in any Sub-Fund.

(b) A non-UAE resident Investor should not be subject to corporate tax in the UAE as a result of holding Units in any Sub-Fund, provided that such Investor is not otherwise treated as resident in the UAE, is not holding its investment in connection with a permanent establishment in the UAE and does not have a nexus to the UAE.

(c) The UAE CT Law provides that non-resident persons (without a permanent establishment in the UAE) will be subject to withholding tax at 0% (or a different rate, yet to be specified) on certain categories of income received from UAE sources, subject to further clarifications or changes that would be outlined in future Cabinet Decisions or other guidance. At present no Cabinet or Ministerial Decisions have been issued to determine either (i) specific categories of UAE sourced income that may be subject to 0% withholding tax or (ii) specific categories of UAE sourced income that may be subject to a different withholding tax rate. Accordingly, under current legislation, distributions to non-UAE Investors should not be subject to UAE withholding tax or UAE filing obligations.

24.5 **UAE VAT**

(a) As of 1 January 2018, legislation in respect of VAT in the UAE came into full force and effect pursuant to the GCC Unified Agreement on VAT, which was ratified by UAE Federal Decree No. 31 of 2017, the UAE Tax Procedures Law, UAE Cabinet Resolution No. 36 of 2017 – Executive Regulations on the Tax Procedures Law, the UAE VAT Law, and UAE Cabinet Decision No. 52 of 2017 – Executive Regulations on the VAT Law.

(b) VAT in the UAE generally applies to all goods and services (including most financial services) at a standard rate of 5% (as at the date hereof) with certain exemptions for a limited range of goods and services. Certain supplies of goods and services are subject to a 0% rate or an exemption from VAT (subject to specific conditions being met).

(c) Under the UAE VAT Law, VAT should not be payable in respect to the acquisition or sale of Units. However, it should be noted that fees relating to the transfer of ownership of Units would be subject to VAT at the standard rate of 5%. Certain fees may be subject to VAT at 0% where the buyer is non-resident and the sale meets the conditions for zero-rated export of services.

(d) Taxable Persons may be able to deduct or claim a credit for input VAT and will be required to maintain VAT records and accounts in compliance with UAE VAT Law and self-assess their VAT returns to the FTA on either a quarterly or monthly basis (to be assessed by the FTA, dependent on turnover).

(e) Neither the Umbrella Fund nor any Sub-Fund is expected to be registered for UAE VAT purposes; however, it is anticipated that each Sub-Fund will have VAT costs in relation to its ongoing activities (e.g., operating costs). It is currently expected that VAT will be payable in respect of the Management Fee. Payments for the provision of services by the Fund Manager, the Fund Administrator and Service Providers to the Sub-Funds may be grossed up for VAT pursuant to the terms of the relevant engagements. VAT included in the price of supplies related to the Fund may not be fully recoverable and any VAT costs may be borne by one or more Sub-Funds (and thus indirectly by the Investors).

(f) The UAE VAT Law has recently been amended to provide for a VAT exemption in relation to certain fund management services with effect from 15 November 2024. The exact scope of the exemption is not yet certain and guidance is expected from the relevant UAE authorities.

24.6 No UAE Control Restrictions

Currently there are no control restrictions applicable in the UAE to currency or exchange rates under Applicable Laws and free transfer of currency from and to the UAE is permitted, subject to international provisions applicable from time to time. In the event of any substantial amendment to or variation of Applicable Laws that results in currency control restrictions becoming applicable in the UAE, the Fund Manager will notify the Investors of such amendment or variation within a reasonable period of the Fund Manager becoming actually aware of such amendment or variation to Applicable Law.

25. AUTOMATIC EXCHANGE OF INFORMATION

25.1 FATCA

(a) The FATCA arrangements between the US and the UAE require in certain circumstances reporting to the UAE authorities of US Person's direct and indirect ownership of non-US accounts and non-US entities. Failure to provide the requested information may lead to a 30% withholding tax applying to certain US source income (including dividends and interest) and gross proceeds from the sale or other disposal of property that can produce US source interest or dividends.

(b) In order to comply with FATCA, the Fund through the Fund Manager may require prospective Investors to provide documentary evidence of their tax residence and all other information deemed necessary to comply with the above-mentioned requirement.

(c) Notwithstanding anything to the contrary in this Prospectus, to the maximum extent not prohibited by Applicable Laws, the Fund Manager, on behalf of the Fund (including any Sub-Fund) may:

(i) withhold any taxes or similar charges that it is legally required to withhold, whether by Applicable Laws or otherwise, in respect of any Investor;

(ii) require any Investor to promptly furnish such personal data as may be required by the Fund Manager in its discretion in order to comply with any Applicable Laws and to promptly determine the amount of withholding to be retained;

(iii) divulge any such personal information to any UAE tax or regulatory authority, as may be required by Applicable Laws or such authority; or

(iv) withhold the payment of any dividend, returns or income or redemption proceeds to an Investor until the Fund Manager holds sufficient information to enable it to determine the correct amount to be withheld.

(d) Although the Fund Manager will attempt to satisfy any obligations imposed on the Fund (including any Sub-Fund) to avoid the imposition of the 30% withholding tax, if any Sub-Fund becomes subject to a

withholding tax as a result of FATCA, the value of Units held by all Investors may be materially affected.

25.2 **CRS**

The Fund Manager may process, store, transfer and disclose, without the need for consent or approval from an Investor, information about the Investor in its possession pursuant to requirements under the OECD's CRS or any other intergovernmental agreement between the UAE and any other country in relation to the implementation of CRS, any similar, existing or future regime intended to secure the exchange of information for purposes connected to taxation, or any similar legislation or regulations in force in any other jurisdiction from time to time or any intergovernmental or other agreements made and Applicable Laws adopted pursuant to the implementation of the foregoing.

26. GENERAL

26.1 Units of the Sub-Funds

(a) The aggregate Unit capital of the Sub-Funds will at all times be equal to the Net Asset Value of the Fund for the purpose of the annual financial statements of the Fund. The Fund Manager in its discretion may issue Units of nominal value of one (1) AED in any Sub-Fund at the Net Asset Value per Unit and/or redeem some or all of the Units of any Sub-Fund, in each case on such terms as the Fund Manager deems appropriate; provided at all times, that any such issuance and/or redemption of Units by the Fund Manager is subject to Applicable Laws and any approval required by the SCA and/or MOHRE. There are no rights of pre-emption in respect of any issue of Units. The Net Asset Value of each Sub-Fund may not fall below the minimum viable size of the relevant Sub-Fund as described in the relevant Supplement and any other section of this Prospectus pertaining to such Sub-Fund.

(b) Each of the Units entitles the Investors to participate equally on a *pro rata* basis in the net assets of the Sub-Fund which issued the Unit, attributable to the relevant Class in respect of which they are issued. The entitlement of any Investor to Units is limited to the amount subscribed and any accrued income thereon.

(c) The proceeds from the issue of Units will be applied in the books of the relevant Sub-Fund and will be used in the acquisition on behalf of the relevant Sub-Fund of assets in which the Sub-Fund may invest. The records and accounts of each Sub-Fund will be maintained separately.

(d) The Fund Manager reserves the right to re-designate any Class from time to time subject to the prior approval of the SCA, provided that Investors in that Class will first have been notified by the Fund Manager thirty (30) days in advance that the Units will be re-designated and will have been given the opportunity to have their Units redeemed by the Fund Manager, except that this requirement will not apply where the Fund Manager re-designates Units in issue in order to facilitate the creation of an additional Class following approval from the SCA.

(e) No Class confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other Class or any voting rights in relation to matters relating solely to any other Class.

26.2 The Umbrella Fund and Segregation of Liability

(a) The Umbrella Fund is not a separate vehicle of the Fund or a separate legal entity. Each Sub-Fund has segregated liability and each Sub-Fund may issue one or more Classes.

(b) The Fund Manager may, from time to time, upon the prior approval of the SCA, establish further Sub-Funds and establish one or more separate Classes within each Sub-Fund on such terms as the Fund Manager may resolve in its discretion.

(c) The assets and liabilities of each Sub-Fund will be allocated in the following manner in accordance with IFRS:

(i) the proceeds from the issue of Units representing a Sub-Fund will be applied in the books of the Sub-Fund and the assets and liabilities and income and expenditure attributable thereto will be applied to such Sub-Fund;

(ii) where any asset is derived from another asset, such derivative asset will be applied in the books of the Sub-Fund as the assets from which it was derived and in each valuation of an asset, the increase or diminution in value will be applied to the relevant Sub-Fund;

(iii) where a Sub-Fund incurs a liability, which relates to any asset of such Sub-Fund or to any action taken in connection with an asset of such Sub-Fund, such a liability will be allocated to the relevant Sub-Fund, as the case may be; and

(iv) where an asset or a liability of the Fund cannot be considered as being attributable to a particular Sub-Fund, such asset or liability, will be allocated to all the Sub-Funds *pro rata* to the Net Asset Value of each Sub-Fund.

(d) Any liability incurred on behalf of or attributable to any Sub-Fund will be discharged solely out of the assets of that Sub-Fund, and neither the Fund nor Fund Manager, receiver, administrator, liquidator, provisional liquidator or other Person will apply, nor be obliged to apply, the assets of any such Sub-Fund in satisfaction of any liability incurred on behalf of, or attributable to, any other Sub-Fund.

(e) There will be implied in every contract, agreement, arrangement or transaction entered into by the Fund Manager in relation to the Fund the following terms:

(i) each Sub-Funds will acquire legal personality and an independent financial edict upon the issuance of the SCA's decision to license it, and will have, within the period of the license, a legal personality as necessary;

(ii) the Sub-Fund's assets will guarantee the rights of the Investors of that Sub-Fund, and may not be mortgaged or lent to third parties, or held or disposed of in fulfilment of any receivables or debts related to the Fund Manager or any other entities;

(iii) any party contracting with the Fund Manager will not seek, whether in any proceedings or by any other means whatsoever or wheresoever, to have recourse to any assets of any Sub-Fund in the discharge of all or any part of a liability which was not incurred on behalf of that Sub-Fund;

(iv) if any party contracting with the Fund Manager will succeed by any means whatsoever or wheresoever in having recourse to any assets of any Sub-Fund in the discharge of all or any part of a liability which was not incurred on behalf of that Sub-Fund, that party will be liable to the Fund Manager to pay a sum equal to the value of the benefit thereby obtained by it; and

(v) if any party contracting with the Fund Manager will succeed in seizing or attaching by any means, or otherwise levying execution against, the assets of a Sub-Fund in respect of a liability which was not incurred on behalf of that Sub-Fund, that party will hold those assets or the direct or indirect proceeds of the sale of such assets on trust for the relevant Sub-Fund and will keep those assets or proceeds separate and identifiable as such trust property.

(f) All sums recoverable by the Fund Manager on behalf of a Sub-Fund will be credited against any concurrent liability pursuant to the implied terms set out in clauses (e)(iii) to (v).

(g) Any asset or sum recovered by the Fund Manager on behalf of a Sub-Fund will, after the deduction or payment of any costs of recovery, be applied so as to compensate the Sub-Fund.

(h) In the event that assets attributable to a Sub-Fund are taken in execution of a liability not attributable to that Sub-Fund, and in so far as such assets or compensation in respect thereof cannot otherwise be restored to the Sub-Fund affected, the Fund Manager, will certify or cause to be certified, the value of the assets lost to the Sub-Fund affected and transfer or pay from the assets of the Sub-Fund or Sub-Funds to which the liability was attributable, in priority to all other claims against such Sub-Fund or Sub-Funds, assets or sums sufficient to restore to the Sub-Fund affected, the value of the assets or sums lost to it.

(i) Separate records will be maintained by the Fund Manager in respect of each Sub-Fund.

26.3 **Termination**

(a) The term of the Fund will terminate and the Fund will be wound up upon the earliest to occur of the following events:

(i) the bankruptcy, insolvency, dissolution, liquidation, resignation or withdrawal of the Fund Manager where no replacement fund manager has been appointed as the fund manager of the Fund;

(ii) a decision of the Fund Manager acting in its discretion that the term of the Fund will be terminated; provided, that not less than twenty-one (21) days' notice in writing will be given to all Investors; and

(iii) the continuation of the Fund becomes, or continues to be, unlawful under Applicable Laws in the opinion of the Fund Manager.

(b) The Fund Manager may in its discretion redeem all the Units of a Sub-Fund or a Class, and where no Units remain issued and outstanding in respect of any Sub-Fund such Sub-Fund will be wound up, upon the occurrence of any of the following events:

(i) there are fewer than three (3) Investors in a particular Class or Sub-Fund;

(ii) the Fund Manager determines in its discretion that continuation of a Class or Sub-Fund will, or continues to, have an adverse effect on the Fund as a whole or any Investor; or

(iii) the Fund Manager determines in its discretion that continuation of a Class or Sub-Fund becomes, or continues to be, unlawful under Applicable Laws,

provided, that the Fund Manager gives not less than twenty-one (21) days' notice in writing to all Investors in the affected Class or Sub-Fund.

(c) Notwithstanding anything to the contrary in this Prospectus, the Fund Manager will (i) obtain the approval of the SCA prior to making any decision to terminate and wind up the Fund or any Sub-Fund under this Prospectus and (ii) comply with the requirements under the UAE Investment Fund Laws in respect of termination and winding up of the Fund or any Sub-Fund, including the appointment of a liquidator as applicable.

(d) To the extent not prohibited by Applicable Laws, the Fund Manager may delegate to the Custodian and the Fund Administrator certain functions in respect of the winding-up of the Fund or any Sub-Fund or Class, including calculation of and effecting distributions; provided, that the winding-up of the Fund or any Sub-Fund or Class is carried out in accordance with the terms of this Prospectus and

Applicable Laws; provided further, that all Units and related distributions will be valued in accordance with the valuation provisions of this Prospectus and Applicable Laws.

Investment Risks

There can be no assurance that the Sub-Fund will achieve its investment objective. Although the Sub-Fund benefits from certain capital protection features, the value of a Unit in the Sub-Fund and any income therefrom is not guaranteed and such value and income (if any) may decrease as well as increase in certain circumstances outside the direct control of the Sub-Fund, the Fund or the Fund Manager, resulting in the potential loss of some or all of the amount invested. Any capital return and income received in respect of an investment in the Sub-Fund is based on capital appreciation and income derived from the Investments held by the Sub-Fund, less fees, costs, expenses, taxes and liabilities incurred by the Sub-Fund. Returns from an investment in the Sub-Fund should therefore be expected to fluctuate based on changes to the valuation of Investments and income therefrom, if any, as well as any other applicable variables. Prospective Investors should refer to the specific risk factors set out in Section 5 (*Risk Factors*).

Classification of the Sub-Fund Units

The Fund Manager will make one (1) Class, which is accumulating, available in the Sub-Fund (and may, from time to time and subject to prior approval by the SCA, make additional Classes available in the Sub-Fund).

None of the Units in the Sub-Fund will be listed or admitted for trading on an exchange. Units in the Sub-Fund will only be made available to Eligible Employees on an off-market basis.

Distribution and Selling Restrictions

The distribution of this Supplement and the offering or purchase of the Units in the Sub-Fund may be restricted in certain jurisdictions. No Persons receiving a copy of this Supplement or an associated application form in respect of Units in the Sub-Fund in any such jurisdiction may treat this Supplement or such application form as constituting an invitation to them to purchase or subscribe for Units, nor should they in any event use such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used with the required approval from the relevant regulatory authorities. Accordingly, this Supplement does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the Person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any Persons in possession of this Supplement and any Persons wishing to apply for Units pursuant to this Supplement to inform themselves of, and to observe, all laws, rules and regulations of any relevant jurisdiction applicable to such Person. Prospective applicants for Units should inform themselves as to the legal requirements of so applying and subscribing, holding or disposing of such Units and any applicable exchange

control regulations and taxes in the countries of their respective citizenship, residence, incorporation or domicile, including any requisite government or other consents and the observing of any other formalities.

The Units have not been registered under the 1933 Act or the securities laws of any US state, nor is such registration contemplated. The Units will not be offered or sold in the US. The Units will be offered outside the US in reliance upon Regulation S.

There is no public market for the Units and no such market is expected to develop in the future. The Units may not be sold or transferred (i) except as permitted under this Supplement, the Prospectus and Applicable Laws and (ii) unless they are registered under the 1933 Act and under any other applicable securities laws or an exemption from such registration thereunder is available.

This Supplement does not constitute an offer to sell or the solicitation of an offer to buy in any state or other US jurisdiction to any Person to whom it is unlawful to make such offer or solicitation in such state or jurisdiction. This offering does not constitute an offer of the Units to the public, and no action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose. The Units may not be offered or sold, directly or indirectly, and this Supplement may not be distributed in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction.

The Fund will not be registered as an investment company under the 1940 Act. Under current interpretations of the SEC, the 1940 Act exempts from such registration any non-US issuer all of whose outstanding securities are beneficially owned either by Persons who are not US Persons or by US residents that are "qualified purchasers" as defined under the 1940 Act if relying on 3(c)(7). Prospective Investors will be required to make certain representations and warranties, and the Fund's legal documents will contain restrictions on transfer, designed to ensure that the conditions relating to the foregoing exemption will be met. None of the Fund Parties is registered or intends to register as an investment adviser under the Investment Advisers Act of 1940.

The information contained in this Supplement is not subject to any additional information and cannot be amended without the approval of the SCA and notification to the Investors in accordance with the approval of the SCA.

The Sub-Fund offered under this Supplement and the Prospectus has been presented to the SCA for the purpose of the Fund Manager marketing Units to certain eligible investors within the UAE, in accordance with the terms of this Supplement. Accordingly, if the Sub-Fund is offered in any other country, the Fund Manager will be responsible for taking all the necessary procedures, measures and obtaining the necessary approvals from the concerned bodies in those countries before offering the Sub-Fund.

IN ALL CASES, PROSPECTIVE INVESTORS MUST CONSULT WITH THEIR OWN INDEPENDENT FINANCIAL ADVISER, ACCOUNTANT, LEGAL ADVISER, TAX CONSULTANT AND SHARI'A ADVISER.

Certain capitalised terms used in this Supplement and not defined herein are defined in Section 1 (*Definitions and Interpretation*) of the Prospectus. SCA Licensing and Registration

The Lunate End-of-Service Benefits Fund (the **Umbrella Fund**) and the Prospectus have been approved and registered by the SCA in accordance with the UAE Investment Fund Laws and the UAE EOSB Fund Laws. The Sub-Fund is licensed by and registered with the SCA. The authorisation of the Sub-Fund is not an endorsement or guarantee of the Sub-Fund by the SCA nor is the SCA responsible for the contents of this Supplement. Authorisation of the Sub-Fund by the SCA does not constitute a warranty as to the performance of the Sub-Fund and the SCA will not be liable for the performance or default of the Sub-Fund.

Investment Risks

There can be no assurance that the Sub-Fund will achieve its investment objective. Although the Sub-Fund benefits from certain Shari'a-compliant capital protection features, the value of a Unit in the Sub-Fund and any income therefrom is not guaranteed and such value and income (if any) may decrease as well as increase in certain circumstances outside the direct control of the Sub-Fund, the Fund or the Fund Manager, resulting in the potential loss of some or all of the amount invested. Any capital return and income received in respect of an investment in the Sub-Fund is based on capital appreciation and income derived from the Investments held by the Sub-Fund, less fees, costs, expenses, taxes and liabilities incurred by the Sub-Fund. Returns from an investment in the Sub-Fund should therefore be expected to fluctuate based on changes to the valuation of Investments and income therefrom, if any, as well as any other applicable variables. Prospective Investors should refer to the specific risk factors set out in Section 5 (*Risk Factors*).

Classification of the Sub-Fund Units

The Fund Manager will make one (1) Class, which is accumulating, available in the Sub-Fund (and may, from time to time and subject to prior approval by the SCA, make additional Classes available in the Sub-Fund).

None of the Units in the Sub-Fund will be listed or admitted for trading on an exchange. Units in the Sub-Fund will only be made available to Eligible Employees on an off-market basis.

Distribution and Selling Restrictions

The distribution of this Supplement and the offering or purchase of the Units in the Sub-Fund may be restricted in certain jurisdictions. No Persons receiving a copy of this Supplement or an associated application form in respect of Units in the Sub-Fund in any such jurisdiction may treat this Supplement or such application form as constituting an invitation to them to purchase or subscribe for Units, nor should they in any event use such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used with the required approval from the relevant regulatory authorities. Accordingly, this Supplement does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the Person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any Persons in possession of this Supplement and any Persons wishing to apply for Units pursuant to this Supplement to inform themselves of, and to observe, all laws, rules and regulations of any relevant jurisdiction applicable to such Person. Prospective applicants for Units should inform themselves as to the legal requirements of so applying and subscribing, holding or disposing of such Units and any applicable exchange

control regulations and taxes in the countries of their respective citizenship, residence, incorporation or domicile, including any requisite government or other consents and the observing of any other formalities.

The Units have not been registered under the 1933 Act or the securities laws of any US state, nor is such registration contemplated. The Units will not be offered or sold in the US. The Units will be offered outside the US in reliance upon Regulation S.

There is no public market for the Units and no such market is expected to develop in the future. The Units may not be sold or transferred (i) except as permitted under this Supplement, the Prospectus and Applicable Laws and (ii) unless they are registered under the 1933 Act and under any other applicable securities laws or an exemption from such registration thereunder is available.

This Supplement does not constitute an offer to sell or the solicitation of an offer to buy in any state or other US jurisdiction to any Person to whom it is unlawful to make such offer or solicitation in such state or jurisdiction. This offering does not constitute an offer of the Units to the public, and no action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose. The Units may not be offered or sold, directly or indirectly, and this Supplement may not be distributed in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction.

The Fund will not be registered as an investment company under the 1940 Act. Under current interpretations of the SEC, the 1940 Act exempts from such registration any non-US issuer all of whose outstanding securities are beneficially owned either by Persons who are not US Persons or by US residents that are "qualified purchasers" as defined under the 1940 Act if relying on 3(c)(7). Prospective Investors will be required to make certain representations and warranties, and the Fund's legal documents will contain restrictions on transfer, designed to ensure that the conditions relating to the foregoing exemption will be met. None of the Fund Parties is registered or intends to register as an investment adviser under the Investment Advisers Act of 1940.

The Sub-Fund is licensed by and registered with the SCA. The authorisation of the Sub-Fund is not an endorsement or guarantee of the Sub-Fund by the SCA nor is the SCA responsible for the contents of this Supplement. Authorisation of the Sub-Fund by the SCA does not constitute a warranty as to the performance of the Sub-Fund and the SCA will not be liable for the performance or default of the Sub-Fund.

Investment Risks

There can be no assurance that the Sub-Fund will achieve its investment objective. The value of a Unit in the Sub-Fund and any income therefrom is not guaranteed and such value and income (if any) may decrease as well as increase. An investment in the Sub-Fund involves investment risks, including the potential loss of some or all of the amount invested. Any capital return and income received in respect of an investment in the Sub-Fund is based on capital appreciation and income derived from the Investments held by the Sub-Fund, less fees, costs, expenses, taxes and liabilities incurred by the Sub-Fund. Returns from an investment in the Sub-Fund should therefore be expected to fluctuate based on changes to the valuation of Investments and income therefrom, if any. Other factors, such as fluctuations in currency exchange rates between the currency in which Units of the Sub-Fund are denominated and the currency of Investments may also cause changes to the value of an investment in the Units. Prospective Investors should refer to the specific risk factors set out in Section 5 (*Risk Factors*).

Classification of the Sub-Fund Units

The Fund Manager will make one (1) Class, which is accumulating, available in the Sub-Fund (and may, from time to time and subject to prior approval by the SCA, make additional Classes available in the Sub-Fund).

None of the Units in the Sub-Fund will be listed or admitted for trading on an exchange. Units in the Sub-Fund will only be made available to Eligible Employees on an off-market basis.

Distribution and Selling Restrictions

The distribution of this Supplement and the offering or purchase of the Units in the Sub-Fund may be restricted in certain jurisdictions. No Persons receiving a copy of this Supplement or an associated application form in respect of Units in the Sub-Fund in any such jurisdiction may treat this Supplement or such application form as constituting an invitation to them to purchase or subscribe for Units, nor should they in any event use such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used with the required approval from the relevant regulatory authorities. Accordingly, this Supplement does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the Person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any Persons in possession of this Supplement and any Persons wishing to apply for Units pursuant to this Supplement to inform themselves of, and to observe, all laws, rules and regulations of any relevant jurisdiction applicable to such Person. Prospective applicants for Units should inform themselves as to the legal

requirements of so applying and subscribing, holding or disposing of such Units and any applicable exchange control regulations and taxes in the countries of their respective citizenship, residence, incorporation or domicile, including any requisite government or other consents and the observing of any other formalities.

The Units have not been registered under the 1933 Act or the securities laws of any US state, nor is such registration contemplated. The Units will not be offered or sold in the US. The Units will be offered outside the US in reliance upon Regulation S.

There is no public market for the Units and no such market is expected to develop in the future. The Units may not be sold or transferred (i) except as permitted under this Supplement, the Prospectus and Applicable Laws and (ii) unless they are registered under the 1933 Act and under any other applicable securities laws or an exemption from such registration thereunder is available.

This Supplement does not constitute an offer to sell or the solicitation of an offer to buy in any state or other US jurisdiction to any Person to whom it is unlawful to make such offer or solicitation in such state or jurisdiction. This offering does not constitute an offer of the Units to the public, and no action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose. The Units may not be offered or sold, directly or indirectly, and this Supplement may not be distributed in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction.

The Fund will not be registered as an investment company under the 1940 Act. Under current interpretations of the SEC, the 1940 Act exempts from such registration any non-US issuer all of whose outstanding securities are beneficially owned either by Persons who are not US Persons or by US residents that are "qualified purchasers" as defined under the 1940 Act if relying on 3(c)(7). Prospective Investors will be required to make certain representations and warranties, and the Fund's legal documents will contain restrictions on transfer, designed to ensure that the conditions relating to the foregoing exemption will be met. None of the Fund Parties is registered or intends to register as an investment adviser under the Investment Advisers Act of 1940.

The Lunate End-of-Service Benefits Fund (the **Umbrella Fund**) and the Prospectus have been approved and registered by the SCA in accordance with the UAE Investment Fund Laws and the UAE EOSB Fund Laws. The Sub-Fund is licensed by and registered with the SCA. The authorisation of the Sub-Fund is not an endorsement or guarantee of the Sub-Fund by the SCA nor is the SCA responsible for the contents of this Supplement. Authorisation of the Sub-Fund by the SCA does not constitute a warranty as to the performance of the Sub-Fund and the SCA will not be liable for the performance or default of the Sub-Fund.

Investment Risks

There can be no assurance that the Sub-Fund will achieve its investment objective. The value of a Unit in the Sub-Fund and any income therefrom is not guaranteed and such value and income (if any) may decrease as well as increase. An investment in the Sub-Fund involves investment risks, including the potential loss of some or all of the amount invested. Any capital return and income received in respect of an investment in the Sub-Fund is based on capital appreciation and income derived from the Investments held by the Sub-Fund, less fees, costs, expenses, taxes and liabilities incurred by the Sub-Fund. Returns from an investment in the Sub-Fund should therefore be expected to fluctuate based on changes to the valuation of Investments and income therefrom, if any. Other factors, such as fluctuations in currency exchange rates between the currency in which Units of the Sub-Fund are denominated and the currency of Investments may also cause changes to the value of an investment in the Units. Prospective Investors should refer to the specific risk factors set out in Section 5 (*Risk Factors*).

Classification of the Sub-Fund Units

The Fund Manager will make one (1) Class, which is accumulating, available in the Sub-Fund (and may, from time to time and subject to prior approval by the SCA, make additional Classes available in the Sub-Fund).

None of the Units in the Sub-Fund will be listed or admitted for trading on an exchange. Units in the Sub-Fund will only be made available to Eligible Employees on an off-market basis.

Distribution and Selling Restrictions

The distribution of this Supplement and the offering or purchase of the Units in the Sub-Fund may be restricted in certain jurisdictions. No Persons receiving a copy of this Supplement or an associated application form in respect of Units in the Sub-Fund in any such jurisdiction may treat this Supplement or such application form as constituting an invitation to them to purchase or subscribe for Units, nor should they in any event use such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used with the required approval from the relevant regulatory authorities. Accordingly, this Supplement does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the Person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any Persons in possession of this Supplement and any Persons wishing to apply for Units pursuant to this Supplement to inform themselves of, and to observe, all laws, rules and regulations of any relevant jurisdiction applicable to such Person. Prospective applicants for Units should inform themselves as to the legal

requirements of so applying and subscribing, holding or disposing of such Units and any applicable exchange control regulations and taxes in the countries of their respective citizenship, residence, incorporation or domicile, including any requisite government or other consents and the observing of any other formalities.

The Units have not been registered under the 1933 Act or the securities laws of any US state, nor is such registration contemplated. The Units will not be offered or sold in the US. The Units will be offered outside the US in reliance upon Regulation S.

There is no public market for the Units and no such market is expected to develop in the future. The Units may not be sold or transferred (i) except as permitted under this Supplement, the Prospectus and Applicable Laws and (ii) unless they are registered under the 1933 Act and under any other applicable securities laws or an exemption from such registration thereunder is available.

This Supplement does not constitute an offer to sell or the solicitation of an offer to buy in any state or other US jurisdiction to any Person to whom it is unlawful to make such offer or solicitation in such state or jurisdiction. This offering does not constitute an offer of the Units to the public, and no action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose. The Units may not be offered or sold, directly or indirectly, and this Supplement may not be distributed in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction.

The Fund will not be registered as an investment company under the 1940 Act. Under current interpretations of the SEC, the 1940 Act exempts from such registration any non-US issuer all of whose outstanding securities are beneficially owned either by Persons who are not US Persons or by US residents that are "qualified purchasers" as defined under the 1940 Act if relying on 3(c)(7). Prospective Investors will be required to make certain representations and warranties, and the Fund's legal documents will contain restrictions on transfer, designed to ensure that the conditions relating to the foregoing exemption will be met. None of the Fund Parties is registered or intends to register as an investment adviser under the Investment Advisers Act of 1940.

APPLICABLE LAWS. THIS SUPPLEMENT, TOGETHER WITH THE PROSPECTUS, SHOULD BE READ IN ITS ENTIRETY BEFORE MAKING AN APPLICATION FOR UNITS IN THE SUB-FUND.

SCA Licensing and Registration

The Lunate End-of-Service Benefits Fund (the **Umbrella Fund**) and the Prospectus have been approved and registered by the SCA in accordance with the UAE Investment Fund Laws and the UAE EOSB Fund Laws. The Sub-Fund is licensed by and registered with the SCA. The authorisation of the Sub-Fund is not an endorsement or guarantee of the Sub-Fund by the SCA nor is the SCA responsible for the contents of this Supplement. Authorisation of the Sub-Fund by the SCA does not constitute a warranty as to the performance of the Sub-Fund and the SCA will not be liable for the performance or default of the Sub-Fund.

Investment Risks

There can be no assurance that the Sub-Fund will achieve its investment objective. The value of a Unit in the Sub-Fund and any income therefrom is not guaranteed and such value and income (if any) may decrease as well as increase. An investment in the Sub-Fund involves investment risks, including the potential loss of some or all of the amount invested. Any capital return and income received in respect of an investment in the Sub-Fund is based on capital appreciation and income derived from the Investments held by the Sub-Fund, less fees, costs, expenses, taxes and liabilities incurred by the Sub-Fund. Returns from an investment in the Sub-Fund should therefore be expected to fluctuate based on changes to the valuation of Investments and income therefrom, if any. Other factors, such as fluctuations in currency exchange rates between the currency in which Units of the Sub-Fund are denominated and the currency of Investments may also cause changes to the value of an investment in the Units. Prospective Investors should refer to the specific risk factors set out in Section 5 (*Risk Factors*).

Classification of the Sub-Fund Units

The Fund Manager will make one (1) Class, which is accumulating, available in the Sub-Fund (and may, from time to time and subject to prior approval by the SCA, make additional Classes available in the Sub-Fund).

None of the Units in the Sub-Fund will be listed or admitted for trading on an exchange. Units in the Sub-Fund will only be made available to Eligible Employees on an off-market basis.

Distribution and Selling Restrictions

The distribution of this Supplement and the offering or purchase of the Units in the Sub-Fund may be restricted in certain jurisdictions. No Persons receiving a copy of this Supplement or an associated application form in respect of Units in the Sub-Fund in any such jurisdiction may treat this Supplement or such application form as constituting an invitation to them to purchase or subscribe for Units, nor should they in any event use such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used with the required approval from the relevant regulatory authorities. Accordingly, this Supplement does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the Person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any Persons in possession of this Supplement and any Persons wishing to apply for Units pursuant to this Supplement to inform themselves of, and to observe, all laws, rules and regulations of any relevant jurisdiction applicable to such Person. Prospective applicants for Units should inform themselves as to the legal

requirements of so applying and subscribing, holding or disposing of such Units and any applicable exchange control regulations and taxes in the countries of their respective citizenship, residence, incorporation or domicile, including any requisite government or other consents and the observing of any other formalities.

The Units have not been registered under the 1933 Act or the securities laws of any US state, nor is such registration contemplated. The Units will not be offered or sold in the US. The Units will be offered outside the US in reliance upon Regulation S.

There is no public market for the Units and no such market is expected to develop in the future. The Units may not be sold or transferred (i) except as permitted under this Supplement, the Prospectus and Applicable Laws and (ii) unless they are registered under the 1933 Act and under any other applicable securities laws or an exemption from such registration thereunder is available.

This Supplement does not constitute an offer to sell or the solicitation of an offer to buy in any state or other US jurisdiction to any Person to whom it is unlawful to make such offer or solicitation in such state or jurisdiction. This offering does not constitute an offer of the Units to the public, and no action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose. The Units may not be offered or sold, directly or indirectly, and this Supplement may not be distributed in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction.

The Fund will not be registered as an investment company under the 1940 Act. Under current interpretations of the SEC, the 1940 Act exempts from such registration any non-US issuer all of whose outstanding securities are beneficially owned either by Persons who are not US Persons or by US residents that are "qualified purchasers" as defined under the 1940 Act if relying on 3(c)(7). Prospective Investors will be required to make certain representations and warranties, and the Fund's legal documents will contain restrictions on transfer, designed to ensure that the conditions relating to the foregoing exemption will be met. None of the Fund Parties is registered or intends to register as an investment adviser under the Investment Advisers Act of 1940.
